JOHN B. FINCH LODGE, I. O. G. T.—MEETS Tuesday evenings in Campbell's Hall, East Los Angeles.

LOCAL MELANGE.

The Democrats Discuss Organization Matters.

IMPROVEMENTS ON CATALINA.

Property Owners Meet and Discuss a Change of Grade of First Street.

An adjourned meeting of the Democrats of this city who are interested in the reorganization of the party was held last evening at the upper Turner Hall. About one hundred were present, and a large number of the representative Democrats of the vicinity were among them.

J. B. Lankershim called the meeting to order a little after 8 o'clock. Mr. Rowan was appointed Sergeant-at-Arms. Tom Brown, the Chairman of the committee appointed at the last meeting to draw up resolutions on the death of B. Cohn, read the following, which were adopted by a unaminous vote of those present:

WHEREAS, The Great Ruler of the Universe has, in his inscrutable wisdom, removed from our midst our late fellow-citizen, Bernhard Cohn.

Resolved, That the members of this Democratic organization do hereby express our sincere regret at the untimely death of our late associate.

Resolved, That by his demise this city loses an active, energetic and untiring citizen, one who in the many positions of honor and trust to which he was called was ever found faithful, tried and true.

Resolved, That in the death of our late associate, this Democratic organization is deprived of one of its most trusted and capable leaders, who was ever strenuous in the support and advancement of Democratic principles.

Resolved, That these resolutions be spread upon the minutes of this Democratic organization, and that an engrossed copy of the same be transmitted to the bereaved relatives of our deceased friend.

Thomas B. Brown, W. H. Workman, B. Chandler, J. J. Mellus, H. S. Parcels, committee.

The Chairman then called for a report from the Committee on Organization, and H. T. D. Wilson, in the absence of Burdette Chandler, made the report. He said that they had outlined a plan for organization which they believed would be impartial. They had sent an invitation to some well-known Democrat in every precinct in the city to come together as a general Committee on Organization at a meeting, the time and place of which could be settled hereafter. For the completion of the organization the committee asked for further time. Mr. Parcels moved that it be granted, and the motion was carried.

On motion of Mr. Collins it was decided that this general meeting should be held on the 10th of December, in the morning, at 10 o'clock.

Mr. Lankershim then made a short speech, describing the political event which had taken place between the time of the last meeting and this one which had greatly encouraged the spirits of the Democracy. He expressed the opinion that the outlook was vastly better for the party in Los Angeles, and in California generally, than it had been in a number of the localities where Democratic victories were gained. He hoped to see active and thorough organization among the host of stalwart Democrats in Los Angeles county.

Short speeches were made by the following gentlemen, each rising in response to calls: Tom B. Brown, Mr. Reddick, C. A. White, Judge Weston, Judge Bledso, Shirley Ward and Mr. Connelly.

GREAT IMPROVEMENTS.

They Will Begin Immediately on Catalina Island.

The long expected improvement of Catalina island, under its new ownership, seems likely to come about in the immediate future. It will be remembered that last spring Colonel Smith contracted on behalf of a syndicate of English capitalists to purchase the island from Geo. R. Shatto. After the arrangement was completed Colonel Smith returned to England and remained there during the summer. About a month ago Colonel Smith returned, but refused to say anything about the arrangements which had been made.

Yesterday the selection of the local Board of Directors was made. It consists of Col. Smith, Col. H. H. Markham, Wm. Lacy and George R. Shatto. They will have the management of all the affairs of the company, and will begin immediately to carry out the plans which were outlined when the purchase was made.

Today these directors pay a visit to the island, and will pick out a site for a new hotel. It will be situated near Johnson's landing, which is at the west end of the island. This hotel is to cost $250,000. Work will be begun as soon as possible.

FIRST STREET.

The Property Owners Consider a Change of Grade.

A number of the property owners on First street met in the Police Court last night to consider the advisability of cutting through the hills and opening up a thoroughfare with a traffic grade to the city limits.

Mr. C. N. Wells occupied the chair, and Mr. J. H. Blanchard officiated as Secretary. The proceedings were opened by Mr. Robson, who stated that the needs of the property owners upon First street, between Hill and Pearl streets, required a grade of one foot in eleven. He said, however, that if the interests of the people further out west were to be considered, a grade of one in sixteen feet would be necessary. The former grade met with no opposition from any source, he asserted, but anything lower than that must inevitably fail, owing to the immense expenditure involved.

Mr. Maltman said he came from the far West End and knew exactly what the residents of that section were interested in. They did not want a steep grade, but one which would accommodate the immense vehicular traffic which came in from the outside country. At present there was no place of ingress except by going miles round, so as to come in by Seventh street. He claimed that the reason the business part of the city was moving south was because of this very impediment to traffic.

A lenghty discussion of the matter followed, in which Messrs. Kiefer, Shrier, Trantum and Register took part, after which Mr. Robson moved that the Clerk be instructed to draw up two petitions for circulation among the property owners, so as to determine the feeling with regard to the respective grades of 1 in 11 and 1 in 16.

Mr. J. H. Dockweiler made an eloquent address in favor of making First street one of the main arteries of the city by establishing a good grade, and stated that the project involved only a question of cost.

Contractor Donegan stated that although he had already done $1,200 worth of work on the proposed grade of 1 in 7⅝, he had consented to change it to 1 in 11, provided he was allowed a *pro rata*. He stated that already there was a cut of seventy feet in depth with the present grade to be encountered, and at the lower grade this place would be extremely dangerous. The grade of 1 in 16 was utterly impracticable.

Mr. Walker's amendment to the motion, in the form of the following resolution, was lost after discussion:

Resolved, That it be the sense of this meeting that the City Council proceed with the suits now commenced against the property owners, and that First street be graded from Fort street to Grand avenue according to the grade as now established.

The original motion of Mr. Robson was carried, as was also a motion to the effect that the Chair appoint two committees of five to circulate the petitions and ascertain the cost of each grade, including the damages, the Chairman casting the deciding vote.

The meeting then adjourned to the call of the Chairman.

AMUSEMENTS.

"For Sweet Charity," at the Los Angeles.

Miss Nellie McHenry re-appeared last night at the Los Angeles Theater, after an absence of more than a year. She returns with a new play, a biting satire on amateurs, by Bronson Howard. It is the first thing from the pen of this author presented in Los Angeles. It will be followed at once by *The Henrietta*, which will be put on at the Grand Opera House tomorrow by Stuart Robson.

Miss McHenry has full swing in this play for her bubbling, rollicking style of comedy, and she makes much of it. The best thing in the play is the opportunity it gives Miss McHenry for her song and dance business, in which she particularly excels.

Mr. W. H. Lytell, as the tragedian, "profesh," "legit," to his finger's ends, was a fine bit of acting. His make-up as the Indian chief was excellent.

The play is decidedly extreme in its treatment of amateurs, being an extravaganza rather than a comedy.

Miss McHenry will only be here tonight, and a good house is assured.

The Gilmore Festival.

This morning at 10 o'clock the sale of seats for the great Gilmore festival will open at Bartlett's music store. The announced series includes two evening and one afternoon concert, on Monday and Tuesday, the 18th and 19th. The matinee takes place on Tuesday.

Twenty years ago—in 1869—P. S. Gilmore startled the musical world by his first Peace Jubilee, a colossal achievement never before equalled, except by his own second and enlarged edition in 1872, when one hundred thousand people, seated in a ten-acre colliseum, listened to the tremendous harmonies of twenty thousand singers and two thousand instrumentalists. The memory of the sublime effects can never be effaced.

Gilmore is now commemorating his former triumphs by a series of gigantic festivals, of which that at Los Angeles is one. The programme will revive all the salient features of the original Boston Jubilee, with its anvil brigade and its crash of artillery from a battery of six guns.

The great Gilmore Band—the pride of the Nation; a band that will not "play second fiddle" to any on earth—will be heard in concert with some of the finest vocalists in either hemisphere.

The list of eight grand singers is headed by Signorina Clementina Devere, a prima donna soprano of wonderful vocal gifts and cultivation. She has been rapturously received everywhere since the commencement of her tour with Gilmore.

Interest will also be felt in the reappearance here of the great tenor, Campanini, and of the greatest of bassi, Mr. Myron W. Whitney. Furthermore, we shall make acquaintance with Mme. Blanche Stone Barton, the leading American soprano; Miss Clara Poole and Jenny Dickerson, contraltos of excellent quality and renown, both Americans; Signor Duzensi, a newly arrived Italian tenor; Signor Bologna, baritone, and Mr. Chas. E. Pratt, pianist. Musical people will be embarrassed by the richness of the repast comprised in the festival courses, but they can ill afford to miss any of them, for surely such an opportunity may not occur again in a life-time.

"The Henrietta"

Tomorrow night, at the Grand Opera House, Bronson Howard's best production, *The Henrietta*, will be presented by Stuart Robson and a company said to be well selected. The play has the reputation of being an exceedingly clear-cut, high-grade comedy, full of really artistic fun of the refined order. Mr. Robson is too well known to need more than mention, and his support is reported as of a very high order.

"Mr. Barnes of New York.

Mr. Robert Hilliard, who has made such a favorable impression in the title role of "Barnes of New York" at the New California Theater, San Francisco, had formerly won many admirers in that city while leading man with Mrs. Langtry and Mr. Nat Goodwin. Bob was engaged this season as leads for Helen Dauvray, and was the only one who got his salary when the tour was abandoned. Hilliard wisely had Mr. Harry Miner's name to his contract, so that he secured his entire salary. Hilliard is noted in New York as the successful rival of Berry Wall for the kingship of the dudes. Bob is handsome enough for a dude, but several cabbies have cause to remember how clever he is with his hands in the manly art and how quickly he resents an insult.

THE COUNCIL.

Deputy City Clerk Voorhees Goes Wrong.

A MESSAGE FROM THE MAYOR.

The Opening of Los Angeles Street. Other Matters Discussed at Length.

The Council was called to order yesterday morning at 10 o'clock. All of the members were present, with President Frankenfield in the chair.

The report of the Tax Collector for the month of October was read, showing that $16,141 had been collected for licenses.

The Chief of Police reported, advising that an ordinance be passed against the distribution of "dodgers" or small handbills; also that the ordinance on the hitching of horses be revised. Mr. Van Dusen explained that the present ordinance on hitching was violated, and moved that the matter be referred to the City Attorney. Mr. Wirsching thought that better than an ordinance about weights for the fastening of horses would be a recommendation from the Council to the owners of stores to put in hitching posts. Mr. McLain was of the opinion that there was a tendency to pass a good many laws without enforcing any. There was a good ordinance on the subject of hitching.

Mr. Van Dusen withdrew his motion, and Mr. Brown moved that the License Committee formulate a new license law with regard to the distribution of bills. This was carried, and Mr. Brown then moved that the matter of hitching be referred to the City Attorney, with the understanding that the weight called for should not be greater than fifteen pounds. This was carried.

The proposed contract with D. F. Donegan was read, whereby reservoir No. 7 was to be rented to him. President Frankenfield said that a resolution had been passed by the Council declaring that no more city land should be rented. After some discussion, Mr. McLain moved that the contract be approved. It was carried, all except Messrs. Hamilton and Frankenfield voting aye.

An ordinance was read allowing the property-owners on Pearl street between Sixth and Seventh to put down a cement sidewalk on both sides of the street.

The City Attorney reported recommending that the Second Street Cable Company and the owners of the line on Fourth, Pearl and Sixth streets be warned that unless they made use of their lines the track would be condemned.

The opinion of the City Attorney was read on the deed of Mrs. Dannison for property for a school site. Action was deferred one week for parties to perfect title.

Mr. Wells, Chairman of the Citizens' Sewer Committee, who was present, submitted the report of the Sewer Commission, together with the reports of the sub-committees. It was decided not to have the whole report read, as it had already appeared in the papers. Mr. Wells said that there was one clause with reference to storm drains which had not been published, and this was read as follows: "We recommend that a sum not to exceed $75,000 be expended for the construction of storm water drains, separate and distinct from the sewer system, and that the said sum be used in the construction of said drains in localities where, in the judgment of the City Council, the best interests of the city demand." The report was referred to the Sewer Committee.

The ordinance relative to the sewer on Downey avenue was read. A big discussion followed on the question of whether it was worth while to take any action in the matter, in the face of the probability that a complete sewer system would soon be planned and carried out, and also whether the existing mains would carry off the additional flow. The whole matter was finally referred back to the Sewer Committee for further investigation.

The City Engineer reported on the petition of G. W. Cook, to have the junction of Los Angeles and Requena streets repaved, recommending that it be done. It was adopted.

On the recommendation of the City Engineer operations were suspended on the paving of New High, between Bellevue and Alpine.

The City Engineer reported that the protest against the paving of Waters street represented the majority of the property owners. A week's further time was granted in the matter.

The ordinance establishing the grade of Sepulveda street, from Alameda street to Lafayette, was read and carried.

The Finance Committee reported as follows:

First. We have examined the report of the City Auditor on sales of water during the month of October; report of City Justice Austin for October; report of Police Judge Stanton and Police Judge Owens for the month of October; report of City Sealer of Weights and Measures Frank Marsh, for the month of October; report of the Chief of Police on the collection of delinquent September licenses; report of the City Auditor on conditions of the funds November 2nd, 1889, and recommend they be filed.

Second. In the matter of the petition of J. T. Morgan, No. 875, and on report of the City Assessor that the facts stated in the petition are true, recommend that the same be granted and that the certificate of tax sale No. 136, tax sales 1888-89, as found on page 5, book 79, volume 5, be marked canceled by the City Clerk.

Third. Recommend that petition No. 876, of Mrs. A. Huber, be referred to the City Assessor to report to the Finance Committee as to the facts.

Fourth. In the matter of the application of the Los Angeles Soap Company, petitions Nos. 360 and 840, we recommend that the prayer be granted and that a demand for $280 be allowed in their favor, drawn upon the New Water Fund.

Fifth. In the matter of the petition of Leopold Loeb, No. 812, on the certificate of the City Assessor, he is entitled to $2.20, we recommend that that amount be allowed said petitioner, upon the presentation of a proper demand therefor.

Sixth. In the matter of the petition of Mrs. Lou Owings for a return to her of money paid to the Tax Collector for improvements on property upon which the Assessor now states that there are no improvements, we recommend the sum of $5.50 be allowed her upon the presentation of a proper demand.

Seventh. In the matter of the petition of J. M. Molle, No. 877, recommend that the same be denied, on the ground that the facts stated in the petition cannot be substantiated.

Eighth. In the matter of the petition of D. Einstein, we recommend that the sum of $5.50 be returned to him upon the presentation of a proper demand, it being shown that his property was improperly assessed through a clerical error in the Assessor's office.

Ninth. In the matter of the petition of N. P. Campbell, No. 841, we recommend that a number of certificates of tax sale be marked canceled of record by the Clerk, and that the amount be paid.

After the reading of this report an adjournment was taken till 2 o'clock.

Afternoon Session.

At 2 o'clock President Frankenfield called for the special order set for that time. This was the consideration of the opening and widening of Los Angeles street, from Seventh street to Schafer avenue. There being a number of protests on file, those of the protestants who were present were invited to address the Council on their own behalf. Messrs. Fay, Robbins, Shaw, Lee, Frazer, Millard, Vail and others took advantage of the invitation extended to them, and all were agreed upon the subject. Though not adverse to the widening of the street between Seventh and Manhattan avenue, they were strongly opposed to the extension from the last-named street to Schafer avenue, a distance of nearly a mile. They were unanimous in the opinion that there was no necessity for such an extension. They were not prepared to pay for the work, which was apparently to be laid out as a driveway for the benefit of a few outsiders who had fast trotting horses. Their greatest objection to the projected improvement was based on the ground that the assessment necessarily entailed by it would be too great a hardship at this time.

Hon. J. M. Damron, representing the protestants, said that the opening of this street would be a very serious step. He called the attention of the Council to Sections 1 and 5 of the act under which they were about to proceed. He asked them to give the subject their fullest and fairest consideration, as it was one of the greatest importance to the protestants. He said he had been informed that one or two members of the Council were personally interested in the matter, and he asked them to forego their personal feelings and work for the best interests of the people at large.

Mr. Thorne was accorded permission to address the Council on behalf of the projected movement, and replied to the arguments put forward by the contestants at some length. Mr. Fay said he had been misrepresented, and was again accorded the floor to rebut Mr. Thorne's statement. Mr. Shaw protested against Mr. Thorne being allowed to address the Council, and called the attention of the Council to the statute, which provides that only those who objected should be heard.

Mr. Wirsching moved that the protests be referred to the City Engineer for investigation as to the amount of property represented therein.

Mr. Shafer said he had some interests along the proposed extension. He expected to have to pay his assessment on the property, and he was ready to do so, as he expected to derive some benefit therefrom by reason of the extension of the street. He said that under the ruling of Mr. Damron he would ask to be excused from voting when the matter was put to the vote.

Mr. Wirsching said he had property on Los Angeles street, and he was ready to vote on the question in the interests of the city. He should certainly not ask to be excused from voting on that ground.

Major Bonsall said in regard to the origin for this movement, the Board of Public Works thought at the time that there would not be much opposition to it.

Mr. Wirsching's motion was carried by a vote of 8 to 1, Mr. Summerland being the only negative vote.

Mr. Wirsching moved that the matter be postponed until next Monday at 2 p. m. Carried.

The Clerk proceeded to read a message from the Mayor, but as there was a reference to the City Attorney therein, the reading was withheld and an officer sent to request the attendance of the City Attorney.

In the meantime City Clerk Teed read the following communication:

GENTLEMEN—As City Auditor of the City of Los Angeles, I consider it my duty to communicate and bring to your attention such matters as may come within my observation or knowledge touching the financial matters of the city, as well as all other matters pertaining thereto, with the view of performing my sworn duty, as well as to help to correct whatever irregularities which may exist in the administration of the city's affairs.

In examining the report made by Deputy City Clerk Voorhees, of licenses issued and collected during the month of October, 1889, I find the following facts which will speak for themselves, and from which your honorable body may draw such conclusions as you may best deem proper in the premises:

City license No 2,443, as shown by the stub, was issued to the Union Supply Company as third class merchandise, upon the payment to said Voorhees of the sum of $5. The stub has been changed by marking out Union Lumber Supply Company and the $5, and inserting George F. Jones, fifth class merchandise, $1. In Mr. Voorhees' return he reports the collection of the sum of $1 on account of said license. The license itself, now in my possession, shows it was issued to the Union Lumber Supply Company as third class merchandise, and paid for at the rate of $5 to Deputy City Clerk Voorhees. The said Voorhees in this instance only returned to the Tax Collector the sum of $1 for said license. I find also a similar state of circumstances in the case of the issuance and collection of city license No. 2,446, and I believe also in several other cases. I respectfully submit the foregoing matters, that your honorable body may deal therewith as you may deem proper.

Respectfully yours, F. E. LOPEZ, City Auditor.

City Clerk Teed said that he extremely regretted the disgraceful affair, which was simply the result of a clerk going wrong for drink. It had all occurred during his absence, and he had found it out since his return. The person referred to had been discharged, and he asked that the Finance Committee be authorized to employ an expert to investigate the books and find out the exact amount of the peculation.

On motion of Mr. Wirsching, the Finance Committee was instructed to carry out the suggestion.

The report of the Board of Public Works, as published in the HERALD, was adopted.

A long message from the Mayor was read by the Clerk. It was in answer to the communication of City Attorney McFarland, published a week ago.

City Attorney McFarland, in replying, said that as the public was doubtless tired of listening to a controversy between two city officials, he would not proceed any further in the matter after saying a few words. The message was evidently written for the purpose of informing the public at large that the Mayor had officiated as City Attorney, and that he had done so with honor to both himself and the public. In the opinion of the speaker, the Mayor, instead of making a fair reply, as he had stated it was his intention to do, had made a most unfair one in every way. The fact of the matter was that Mr. Robinson, the man who wrote the Mayor's message, had heard something, and, as everyone was aware, what Mr. Robinson knows the Mayor knows soon afterwards, and that is about all he does know.

Deputy City Attorney Drew also made a brief statement in reply to the "slur" which he said had been cast at him in the message; and, on motion of Mr. Hamilton, the communication was received and placed on file.

Police Commissioner D. Gilbert Dexter was granted leave of absence from the city for a period of three weeks, at the request of Mr. Van Dusen.

The hearing of the protests against the proposed opening of Sixth street from Main to Wall street was made a special order for 2 o'clock on Monday next, and a recess was taken until 10 o'clock this morning.

Board of Supervisors.

The report of Dr. Brainard on the Hospital was read, and Supervisor Davis was appointed to purchase cows for the Hospital. The Chairman was appointed to attend to the laundry.

Certain claims for witness fees were referred back to Judge Cheney on the ground that the matter rests wholly with the Court, according to section 1,329, P. C.

Mr. Riggs was ordered to stop excavating at the San Fernando-avenue bridge for the present.

Bids for the Pasadena boulevard were ordered opened, and all of them rejected.

The petition of the Produce Union of Cahuenga to have the foothill road to Santa Monica opened was read and referred to Mr. Davis as a committee of one.

The Hazard and Whittier road was declared a public highway.

The citizens of Sierra Madre were granted permission to build a stone or cement ditch down the public road on the east side of the Hastings property.

The report of Mr. Rusks on the San Fernando avenue bridge, was laid over until November.

Certain roads in San Jose ranch were declared closed as public highways and certain others were accepted in lieu thereof.

The Chairman was made a committee of one to attend to the repairing of city streets in front of county property.

AN INDIAN'S SUICIDE.

He Strangles Himself in the County Jail.

Yesterday morning about 7:15 o'clock one of the United States prisoners in the County Jail, a Yuma Indian named Ahladicam, alias Miguel, committed suicide by strangling himself with a silk handkerchief in his cell. At 7 o'clock the Indian was seen lying on his cot by one of the trusties, who spoke to him. A quarter of an hour later Jack Sullivan, another trusty, passed the cell, and saw "Indian" Mike, as he was called, standing apparently on tiptoe behind the door of the cell. On investigation, however, Sullivan found that the savage had run a silk handkerchief through a ring in the door some six and a half feet from the floor, and, after standing upon a bucket, tied the handkerchief securely round his neck. He must then have kicked the bucket from under his feet and deliberately choked to death. Blood was trickling from the suicide's nose and mouth, while his eyes and tongue protruded in a horrible manner.

Sullivan raised an alarm and the Indian was cut down. As he was still breathing, Drs. Wernigk and Frecius were called upon to revive him, but after working upon him for nearly thirty minutes their efforts were fruitless, for he was beyond recovery. Coroner Meredith was notified of the occurrence, but owing to his being called upon to hold an inquest at Santa Monica, he was obliged to defer the examination until this morning. Indian Mike, who was 30 years old, belonged to the Yuma reservation, and was thoroughly conversant with both the Spanish and English languages, but, as is usual with the majority of his race, he persistently refused to speak in the latter tongue. He was a fine specimen of humanity physically, standing fully six feet in height, and being well built in proportion. It is believed, however, that a delicate operation performed upon him by surgeons on his arrival at the jail last month, affected him mentally, for only a week ago he made an attack, armed with an iron weight, upon a fellow prisoner named Chase. During the scene which ensued he nearly killed Turnkey Kennedy and two trusties, from the effects of which the former is still confined to his bed. Since that time he has evinced signs of despondency, which, however, were attributed to the fact that he was restrained from the liberty of the corridor, as formerly. When searched before being placed in his cell two long plaited silk handkerchiefs which he wore as a belt round his waist were taken from him, much to his disgust. The reason that the one with which he choked himself to death was not also taken was that it was considered too small for any such purpose. Ahladicam was incarcerated to await his trial for the murder of Epialias Elvira, a young squaw on the Yuma reservation, on or about the 19th ultimo. He was alleged to have succeeded in obtaining some whiskey, with which he made the girl intoxicated after a night's festivities at the camp. While under the influence of the liquor he attempted to rape the girl, and when she resisted he choked and beat her to death.

East Side Notes.

Dr. Carson and wife will depart tomorrow for Seymour, Mo,

The Baptist young people have changed their night of meeting from Sunday to Monday.

The Board of Trade meets tonight at the residence of E. M. Hamilton, on Lecouvreur street.

Mr. Horne's family is about to remove from the residence on South Hayes street to rooms in the Horne & Abel building, 508 Downey avenue.

Rev. W. W. Tinker preached an excellent sermon to a large house on Sunday night, taking the cable road for a text and drawing some excellent lessons therefrom.

A meat-wagon, heavily loaded, concluded that it was carrying too much flesh last evening, and broke down on the cable track in front of the Pico House, delaying travel for a short time. The wreck was soon cleared away.

Residents near Kuhrts street are excited over a rumor that all the cars on the Kuhrts-street line except one are to be taken off. They complain that the cars are not run often enough now, making those in a hurry walk over to the avenue, and if only one car is run it will be of no use whatever.

The Decoration Committee for the cable celebration last Saturday awarded and delivered the two prizes of $10 each as follows: For the best decorated residence, the Sepulveda mansion, corner of Hancock street and Downey avenue; for best decorated train, Train No. 1, Ludwig Gossman, conductor, T. T. Mooney, gripman.

A boy in the arroyo district created some excitement on Sunday afternoon by disappearing suddenly and mysteriously. After his parents had roused the neighborhood and a man had gone down into a well and fished around in the chilly water without success, the cause of the disturbance was found enjoying a nap under the kitchen table, concealed from view by the table-cloth.

A former East-Sider, Prof. Thos. Chaffer, is becoming quite noted as a swimming teacher at the Natatorium. Quite a number of East Side ladies and gentlemen have been taking lessons of him, and tonight being "invitation night" a party of East-Siders are expecting to visit the "Nat" and disport themselves in the water or watch the Professor's pupils display their skill.

Inherited Scrofula.

Swift's Specific (S. S. S.) cured my little boy of hereditary scrofula, which broke out all over his face. For a year he had suffered, and I had given up all hopes of his recovery, when at length I decided to use S. S. S. After using a few bottles he was entirely cured. Not a symptom now remains of the disease. This was three years ago.

TRADE S.S.S. MARK

In the early part of last year I had a violent attack of rheumatism, from which I was confined to my bed for over three months and at times was unable to turn myself in bed, or even raise the cover. A nurse had to be in constant attendance day and night. I was so feeble that what little nourishment I took had to be given me with a spoon. After calling in the best local physicians, and trying all other medicines without receiving any benefit, I was induced by friends to try Swift's Specific (S. S. S.) I discontinued all other medicines, and took a course of S. S. S. thirteen small bottles, which affected a complete and permanent cure.

GENERAL TOPICS.

The Cronin Trial Enters on Another Week.

CONGRESS OF CATHOLIC LAYMEN.

Addresses by Daniel Dougherty and Others—New Through Traffic Arrangement.

[Associated Press Dispatches to the HERALD.

CHICAGO, November 11.—In the Cronin case this morning a witness was introduced who testified that Kunze last spring went under the name of Kaiser. Other witnesses testified to acts showing an intimacy between Kunze and O'Sullivan.

Gus Klaber, a tinner, testified to having soldered up a galvanized iron box, 14 by 26 inches, for Burke two days after the murder. Burke objected to witness removing a cord from the box, which held the top on. In the course of conversation, Burke said Cronin was a spy and ought to be killed.

The State's Attorney endeavored, without success, to show by Witness Walsh's testimony that Burke was without money of his own in Joliet, but that shortly afterward he was in Winnipeg with plenty of money, a ticket for Europe and able counsel to fight his extradition.

Joseph O'Byrne, Senior Guardian of Cronin's camp of the Clan-na-Gael, told about a conversation he had with Beggs and others two or three days after Cronin's disappearance. Beggs expressed the opinion that Cronin would turn up all right, and Dennis Ward, who was with him, said he thought Cronin had run away with some woman.

Maurice Morris, a friend of Cronin's, testified as to a conversation had with Dennis Ward in the presence of Beggs. Ward asserted that Cronin had gone away with a woman, whereat Morris got mad and said emphatically that Cronin had been murdered, and by people in this city. Beggs thereupon said:

"Oh, you are not posted; we are in the inner circle, and know what we are talking about."

In reply to questions by the attorneys, Morris stated as his definition of "inner circle" that the "I. M. B.," before they united with the "U. B.," belonged to the inner circle.

A lengthy examination regarding the inner circle, triangle and anti-triangle, Clan-na-Gaels, incidentally dragging in the faction fights in order to establish, if possible, what Beggs' reference to the inner circle meant, then ensued. Finally Mr. Forrest, for the defense, objected to it all as hearsay and inadmissable. Foster, counsel for Beggs, was willing it should remain in the evidence, but the Court finally ruled that it should be stricken out so far as it applies to any of the defendants except Beggs.

Cronin's clothes and surgical instruments, found in the Lake View sewer last Friday, were then exhibited, and the sewer-cleaner told about the finding of them.

Mrs. Conklin, at whose house Cronin lived, identified the clothes and other articles as Cronin's property.

An unconfirmed rumor is current that Dr. Cronin's watch and shoes were found this afternoon in the Lake View sewer.

CATHOLIC CONGRESS.

Formal Opening of the Lay Delegates' Convention.

BALTIMORE, November 11.—The 1,200 delegates to the first congress of Catholic laymen of the United States were called to order shortly before noon today by W. J. Onahan, of Chicago. Every seat in the hall was filled and the galleries were crowded. The first applause of the assembly was elicited by the entrance of ex-Governor Lee Cprroll, of Maryland, with Archbishop Ireland, of St. Paul, and Mr. Onahan.

Cardinal Gibbons delivered an address of welcome in the course of which he said that he had for a long time desired the clergy and laity to come more closely together. The clergy, he said, had much to learn from the laity from their wisdom and discretion, and above all from the worldly knowledge of the laity, and that there is no country on the face of the earth where the clergy and laity should be more united and co-operate more with one another than in the United States.

Archbishop Ireland briefly invoked the divine blessing. In a few remarks introducing ex-Governor Carroll as the temporary Chairman, Mr. Onahan mentioned Pope Leo. Instantly there was hand-clapping and cheering all over the hall, soon growing into a tumult of enthusiasm. The scene was a notable one, as the delegates swung their hats and shouted greeting to the Roman Pontiff.

CHAIRMAN CARROLL'S ADDRESS.

Mr. Carroll, in taking the chair, said: "It may be that the question will be asked, by what authority is this congress held, and under what law does it assemble. In reply to this we would suggest, by the sanction of his Excellency the Cardinal, the Archbishop of Baltimore and the distinguished prelates who now surround us, and by virtue of the authority of the Constitution of the United States. The congress has but two great purposes at heart, the glory and progress of the Catholic Church and the continued prosperity of the American people."

THE POPE'S BLESSING.

The following cable from Rome was received:

Cardinal Gibbons, Baltimore:

Having made known to the Holy Father the expressions of devotion conveyed to him on the part of the Catholic Congress to be held in Baltimore, his Holiness most graciously bids me say that he most affectionately imparts his blessing to all its members.

[Signed] CARDINAL RAMPOLLA.

AN ADDRESS BY DANIEL DOUGHERTY.

Daniel Dougherty, of New York, was invited to address the congress, pending the appointment of the committees. The famous orator was in his best form and voice. He was given a perfect ovation by the congress.

He sketched the history of Catholicism in this country, and said that in colonial times Catholics suffered the direst cruelties, in comparison with which slaves were high-bred guests. The only religious martyrs in America were Catholics. They were spurned, slandered, vilified. The highest honors of the Republic were denied them by a prejudice as strong as a constitutional enactment. The consolations of religion were denied to sick and suffering Catholics in many institutions of charity and to criminals in prison.

Catholics could call themselves preeminently American; that without Catholicism America today would be unknown. Liberty, which is freedom to worship God, was established in America by the Catholics alone. Though the growth of the country has been marvelous, that of Catholicism has outstripped it. From a despised people they have become a mighty power.

The Catholic Church is the protector of learning. It was she who saved classic literature from the ruins of the Roman Empire. On the eve of the celebration of the four hundredth anniversary of the discovery of America it is proper to say that all the tremendous results achieved therefrom are due directly to the Roman Catholic Church alone. Protestantism was unknown when America was discovered. It was a Catholic, Columbus, who conceived the happy thought. A monk encouraged him, and a cardinal interceded with the Sovereigns of Spain, and a Catholic King and Queen made his expedition possible. It was to spread the Catholic faith that the risk was run, and it was the standard of Catholicity which was first planted on these shores, and for over a hundred years the only Christian worship on the continent was Catholic.

WORK OF THE CONGRESS BEGUN.

All through Mr. Dougherty's address there were outbursts of cheers, and at its conclusion the dignitaries on the stage crowded around him and shook him warmly by the hand. Several other speeches were made by prominent Catholics.

Cardinal Gibbons entered, accompanied by Cardinal Taschereau, of Canada, and both were formally introduced to the congress. Cardinal Gibbons addressed the delegates, welcoming them in his own name and that of the people of Baltimore, irrespective of creed.

The temporary organization was made permanent, and a short recess followed. On reassembling the committees were announced. The regular work of the congress now began by the reading of the first paper, "The Catholic Congress," by the historian, John Shea, of New York. The next paper, by Major Henry T. Brownsen, of Detroit, was "Action in the Church."

INDEPENDENCE OF THE HOLY SEE.

Charles J. Bonaparte eloquently discussed the independence of the Holy See, the necessity of which he enthusiastically upheld, and gave a vivid sketch of the changing conditions from the time of Charlemange to the moment of the Italian Government's forcible deprivation of Pius IX of all temporal authority, and the enactment of the law of guarantees, whereby the Italian Parliament professed to guard the Papal rights. He thought that the most important features of this guarantee should be made the subject of a treaty between all the great powers, making it world-wide. In the course of Bonaparte's remarks great cheering was elicited by the declaration that "whether the Pope be an exile or a captive, a subject he cannot be."

Adjourned until tomorrow.

JOINT THROUGH TRAFFIC.

The Chicago, Union Pacific and Northwestern Fast Line.

CHICAGO, November 11.—The first official intimation of the reported traffic arrangement between the Chicago and Northwestern and the Union Pacific railroads, came from the former today. The companies have formed a combination for the handling of freight and passengers. The joint through service is to be known as the Chicago, Union Pacific and Northwestern line. A fast limited mail train will be established November 17th, whereby passengers and mail will be carried through from Chicago to Portland and San Francisco, making the time from Chicago to Portland eighty-three hours, and from Chicago to San Francisco eighty-five hours. This will reduce the time heretofore made on the Chicago and western, as well as the New York and eastern mail, to Portland seven hours and to San Francisco twelve hours, the arriving time of the new train being 6:40 a. m. at Portland and 10:45 a. m. at San Francisco, instead of in the evening as heretofore. It makes the practical delivery of the mails twenty-four hours quicker. A similar reduction in time east-bound is made on passengers and mails, which now reach Chicago at 8:30 a. m.

Through Pipes.

You may get almost anything, including beer, through a pipe nowadays. The latest pipe scheme is intended to knock out the automatic iceman. A company has laid a main in Fulton street, and will begin work next week, to supply the butchers of Washington market with cold air. The supply may be regulated by a cock. The air is made frigid by the ammonia system. The butchers will use the space formerly occupied by ice to put meat in. The company intends to supply restaurants and saloons, and possibly summer resorts in the city just as soon as it gets its pipes laid.—[N. Y. Sun.

THE ADMISSION PROCLAMATION.

Great Rejoicing at Olympia—The Approaching Senatorial Election.

[Associated Press Dispatches to the HERALD.]

WASHINGTON, November 11.—Secretary Blaine today telegraphed the Territorial and State Governors of Washington that the President signed the proclamation declaring the Territory to be a State in the Union at 5 o'clock and 27 minutes this afternoon. The proclamation is as follows:

By the President of the United States, a proclamation:

WHEREAS, The Congress of the United States did by an act approved on the 22d day of February, 1889, provide that the inhabitants of the Territory of Washington might, upon the conditions prescribed in said act, become the State of Washington, and

WHEREAS, It was provided by said act that the delegates elected as therein provided to the constitutional convention in the Territory of Washington, should meet at the seat of government of said Territory, and that after they had met and organized they should declare on behalf of the people of Washington that they adopt the Constitution of the United States, whereupon said convention should be authorized to form a State government for the proposed State of Washington, and

WHEREAS, It was provided by said act that the constitution so adopted should be republican in form and make no distinction in civil or political rights on account of race or color, except as to Indians not taxed, and not be repugnant to the Constitution of the United States and the principles of the Declaration of Independence, and that the convention should by ordinance, irrevocable without the consent of the United States and the people of the said State, make certain provisions prescribed in said act; and

WHEREAS, It was provided by said act that the constitution thus formed for the people of Washington should by ordinance of the convention forming the same, be submitted to the people of Washington at an election to be held there on the first Tuesday in October, 1889, for ratification or rejection by the qualified voters of said proposed State; and that the returns of said election should be made to the Secretary of said Territory, who, with the Governor and Chief Justice thereof, or any two of them, should canvass the same: and if a majority of the legal votes cast should be for the constitution, the Governor should certify the result to the President of the United States, together with a statement of the votes cast thereon upon the separate articles or propositions, and a copy of the same constitution, articles, propositions and ordinances; and,

WHEREAS, It has been certified to me by the Governor of said Territory that within the time prescribed by said act of Congress a constitution for the proposed State of Washington has been adopted, and that the same has been ratified by a majority of the qualified voters of said proposed State, in accordance with the conditions prescribed in said act, and

WHEREAS, It is also certified to me by said Governor that at the same time the body of said constitution was submitted to a vote of the people, two separate articles, entitled "Woman Suffrage" and "Prohibition," were likewise submitted, which said separate articles did not receive a majority of the votes cast thereon or upon the constitution, and were rejected; also, that at the same election the question of the location of the permanent seat of government was submitted, and that no place received a majority of all the votes cast upon said question, and

WHEREAS, A duly authenticated copy of said constitution and articles, as required by said act, has been received by me,

Now, therefore, I, Benjamin Harrison, President of the United States of America, do, in accordance with the provisions of the act of Congress aforesaid, declare and proclaim the fact that the conditions imposed by Congress on the State of Washington to entitle that State to admission to the Union have been ratified and accepted, and that the admission of that State into the Union is now complete.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this eleventh day of November, in the year of our Lord one thousand eight hundred and eighty nine, and of the independence of the United States of America the one hundred and fourteenth.

By the President,

[SEAL.] BENJAMIN HARRISON.

James G. Blaine, Secretary of State.

GREAT REJOICING.

The New State Jubilant Over its Admission.

OLYMPIA, Wash., November 11.—The Senate and House met this afternoon and proceeded to elect minor officers. Later, while the House was debating a joint resolution to hold a night session and proceed to the election of United States Senators, a message was received from Governor Moore announcing the reception of a dispatch from Secretary Blaine stating that the President had signed the admission proclamation. Instantly every member sprang to his feet, and the wildest cheering ensued. It was some minutes before order was restored. One of the members, Tucker, an old pioneer of the State, then rose to his feet and in a brief speech, trembling with emotion, congratulated the Legislature and people on admission.

In the Senate the proclamation was also received with continued cheering and the wildest enthusiasm. A telegram was received from Congressman Wilson announcing that he was present when the message was signed.

In view of the proclamation, the resolution to elect Senators tonight was laid on the table, and it is generally understood that no election will take place until Tuesday of next week, November 19th. If the election had taken place this evening, ex-Delegate John Allen, and ex-Governor Watson C. Squire would certainly have been chosen on the first ballot. From present appearances they will certainly be chosen whenever the election occurs.

The inauguration of the new State officers will take place next Monday. Elaborate preparations for the event are being made.

A Reliable Railroad Pointer.

The HERALD has never wavered in its belief that direct railroad connection with Salt Lake was among the inevitable developments that would soon materialize. It is, of course, always difficult to find out with approximate certainty the projects and plans of railroad men. A great deal of guess-work must sometimes be done to even follow at a respectful distance the mysterious movements of the men who are at the head of railway enterprises, and sometimes a work of the greatest importance to a region is held so well in hand that the localities interested in it are kept in ignorance until the scheme is ripe for action and can no longer be held from the public. But there are always indications and signs forerunning these new departures which a shrewd observer can interpret with almost absolute certainty. In the past few months there have been many indications pointing to an impending movement on the part of the Union Pacific to reach Los Angeles. Rights of way, franchises and other easements have been carefully secured in this city and county that could only be in the interest of a new railroad project. But the day of signs and indications seems to be past, and we are now on the trail of substantive facts which go to show that the gap between Los Angeles and Frisco in Southern Utah is soon to be the scene of active railroad work.

The coincidence of the meeting here last week of Mr. V. G. Bogue, Chief Engineer of the Union Pacific, and H. M. McCartney, resident engineer at Salt Lake of the same corporation, both coming from different directions, might have had but little significance in itself. But when it was learned that the latter gentleman had actually come by wagon from the terminus of the Utah Central, at Milford, it was surmised correctly that the motive of making this peculiar and unusual trip was to inspect himself the character of the country along the line of the survey already made. Elsewhere in this issue of the HERALD will be found the full explanation of this significant meeting here of these two railroad officials.

There is now no doubt that the Union Pacific will push to the Pacific Ocean in two directions—one north and one south. The southern line will be run from Milford to this city, and we have high authority for saying that Redondo Beach has been selected as the ocean terminus of the road, whether permanently or not, we are not prepared to state. This last fact comes to us from so high and credible an authority that we are puzzled to make it fit into what we have all along regarded as a matter beyond doubt. Rattlesnake Island was certainly purchased at a round sum a year ago for a railroad purpose, and we have always been fully impressed with the idea that the Union Pacific Company was behind the deal. But this reasonable conjecture must be abandoned if the Union Pacific has selected Redondo as its permanent ocean terminus. Is it possible that the Southern Pacific Company was the *sub rosa* purchaser of Rattlesnake Island?

We are assured that one hundred and fifty miles of road—from Milford to Pioche—has been let out to graders. Indeed, the fact that a large force of men are already at work on that section of the road was known here two weeks ago. The entire distance from Milford to this city is something over four hundred miles. The territory to be traversed presents no construction difficulties whatever until the mountains that separate us from the Mohave Desert are reached. The Union Pacific will have the choice to come into this valley over the Santa Fe's rails through the Cajon Pass, or can carve out a route for itself via the surveyed line that strikes in at the Arroyo Seco. It is likely, however, that the former will be availed of at the start, for there is undoubtedly an understanding and league of amity on this subject between the Union Pacific and the Santa Fe people, who already have a line of road reaching from this city to Redondo Beach.

We begin to feel that our hopes are about to be realized, and that the day is not far distant when the mineral treasures of Southern Nevada and Utah will be opened to us by a line of railroad direct to Salt Lake. With this road in operation Los Angeles will not only be placed in communication with the East by another overland railway system, but the manufacturing industries of this city will be immensely stimulated by their easy access to cheap coal measures. The rich mineral districts that will be tapped by this new road, and that have lain dormant because their treasures could not be made profitably available without the aid of cheap transportation facilities, will become a source of immense value to the merchants and producers of this city and valley. The wealth which this tributary territory will pour into Los Angeles will do for our city what the Comstock did for San Francisco in the decade that succeeded the discoveries in that famous ledge.

THE sale of American girls to titled nobodies in Europe is still proceeding very briskly, although there is an occasional jar in the business, such as that which characterized the breaking off of the engagement between Prince Murat and Miss Caldwell. It seems that this young lady has a will of her own, and had declared that while she would give her husband enough money to enable him to make a respectable appearance at his club, she would never permit him to have anything to do with her business affairs. This was enough to petrify the blood of a man like Murat, and his withdrawal followed. Had Miss Caldwell married this titled adventurer, she would have caught a first class parvenu. The famous cavalryman whom Napoleon Bonaparte married to his sister and made King of Naples was the son of an Italian innkeeper, who made up in pluck and dash for his lack of blue blood. To offset the rupture of this engagement, however, we have had to record the marriage of Huntington's niece and adopted daughter to Prince Hatzfeldt. This charming girl is an Angeleño, and was really a Miss Clara Stoddard, the daughter of a respectable hardware dealer who for years lived on the corner of Fort and Franklin streets. Her brother is an official of the Southern Pacific, and for years ran on the Santa Monica road. The Hatzfeldt blood, however, is as blue as the Danube, and Los Angeles will thus have a charming representative in very exclusive European aristocratic circles. This alliance gives our townsman, Mr. I. W. Lord, a prince for a brother-in-law, as that gentleman is married to a sister of the Princess Hatzfeldt.

OF ALL the drains to which this region is subjected, the most intolerable is that which compels us to send yearly upwards of seven hundred thousand dollars to Sacramento as our proportion of the State taxes. Of this large sum about two hundred thousand dollars will be reimbursed us in the shape of school moneys. The remaining half million leaves this section never to return. A standing and most cogent argument for a State of South California is the yearly substraction of these immense sums. The contribution of Los Angeles county alone to the State Treasury would go far to maintain a frugal government for the new State, and the money raised in taxes would be returned to the channels from which it came in the disbursements incident to the administration of such new State. It is hard to find words to express a proper sense of the profligacy which signalized the last legislature, and Los Angeles will have to sweat for it. If it were not for the immense sums which are drained from the ample expanse of the State and carried to Sacramento that town would soon shrink to one-third her present size. Our taxpayers could support the imposition with more resignation, perhaps, were it not for the knowledge that their money goes to support a community which is hostile to them in the highest degree. Seven hundred thousand dollars yearly, kept at home, would do much to vitalize business and encourage enterprise hereabouts.

THE *Bankers' Monthly*, published in Chicago, has a thorough appreciation of the resources and brilliant future of California. In its last issue it says:

Since July 1st, San Francisco has shipped 4,819,000 centals of wheat, and 184,000 barrels of flour, against 3,370,000 centals and 370,000 barrels for the corresponding period a year ago. California is only beginning to show her vast resources. See her banking figures in last *Bankers' Monthly*. She has half the world for her future customers, Asia and Australasia.

So great is the throng of shipping in the bay of San Francisco that there is scarcely room there for the vessels. This year has been one of unusual general prosperity, although there has been great grumbling amongst the wholesale merchants of San Francisco. An increase of forty-three per cent. over last year in the shipments of wheat is a notable proof of the progress of agriculture in this State. If the merchants of the Golden Gate would aim at small profits and be a little more liberal in their credits they would do a colossal business with the countries named and with Central and South America.

MR. FRANCISCO showed us a fine boll of cotton from a plant raised on his place on Ninth street. It is not generally known that cotton of an excellent quality can be raised in this valley. This is no mere hap-hazard assertion, but a fact that has been well proven. Early in the sixties the Legislature offered substantial inducements for the farmers of this State to raise cotton. The late Don Mateo Keller planted out an extensive field in the lower part of the town and was rewarded with a very fine crop. When the cotton was picked and baled an official inspection was made of it, and the State paid over to Don Mateo quite a sum in premiums.

THE English Syndicate that has purchased the island of Santa Catalina has selected Johnson's landing as the place where the $200,000 hotel will be located. Col. Smith and his party will start this morning for that point, and determine upon the exact site of the new building, work upon which is to be commenced at once. Extensive improvements will be made at Avalon, also, we are informed. The British capitalists give out that they will spare no expense to make the resorts on the island the most attractive watering places on the Pacific Coast.

THE gilded youth in the East are just now in a state of great excitement at the disappearance of Miss Drexel and her ten millions into a convent. As marrying for money has of late years become a regular profession with young gentlemen who are too lazy to make a living for themselves every such incident as that of Miss Drexel's retirement from the vanities of the world causes weeping and wailing and gnashing of teeth amongst the whole tribe of dudehood.

ONE of the pleasing peculiarities of that interesting hebdomadal, the *Argonaut*, is the couple of columns which it gives to the shortcomings of the Roman Catholic priesthood. Pixley is very careful never to record anything good which he may encounter of these reverend gentlemen, but wo betide when any one of them shows that he has the failings of his fellow man. As the *Argonaut* has always from three to six columns of editorial denunciation of the Pope's Irish besides, his paper makes an interesting ecclesiastical *pot pourri* Doubtless the Catholic Centennial now under way at Baltimore will excite the great Corypheus of the American party to great fury, and his outgivings thereanent will have the hue and intensity of the seething white hot iron.

THE purchase of Sunol by Robert Bonner retires that marvel of racers permanently from the turf.

THE WORLD'S FAIR.

Congressman Payson's Bill to Locate it at Chicago.

CHICAGO, November 11.—At a meeting of the Committee on Congressional Action, held this afternoon, a bill submitted by Congressman Payson was endorsed as the one to be presented at the coming session of Congress to secure the location of the World's Fair at Chicago. The title of the bill is: "A bill relative to celebrating the 400th anniversary of the discovery of America by Columbus, by holding an exposition of the arts, industries, manufactures and products of the world in the city of Chicago and State of Illinois, in the year 1892." The bill recites the reasons for holding such an exposition in Chicago, and sets particular emphasis upon the fact that Chicago asks of the United States Government no appropriations or loan for the purposes of such exposition. It provides that all articles and goods imported for exhibit shall be admitted free of duty, and the only appropriation asked is $50,000, which is to be "expended under the direction of the Secretary of the Treasury for all purposes connected with the admission of foreign goods for the exposition." The bill also provides that "there shall be admitted to said exhibition by the Government from its Executive Department, the Smithsonian Institute and National Museum such articles and materials as illustrate the function and administrative faculties of the Government in the time of peace and its recourses as a war power, tending to demonstrate the nature of our institutions and their adaption to the wants of the people."

Baseball Arbitrators.

NEW YORK, November 11.—The Board of Arbitration of the National Baseball League and American Association met today. Considerable business was transacted, but the session was held with closed doors. The representatives of the minor leagues expressed themselves satisfied with the agreement for '89, and had no changes to suggest, except perhaps that the minor leagues be given the privilege of suspending a player indefinitely, instead of only for the season. The board re-elected President Young and Secretary Byrne for the ensuing year. The dispute between the Chicago and Omaha clubs, of the Western Association, for the services of Nagle and Coogan was settled. The petition of several players of the St. Joseph club to be relieved from the mandates of the reserve rule, because the club had failed to pay their salaries, was granted. Colonel Rogers' motion to amend Paragraph A of Article II, of the National Agreement, so as to permit the making of contracts for twelve months or a term of years, instead of seven months, was after a discussion withdrawn, and the board took a recess until evening.

It was near midnight when the Board of Arbitration completed its labors. Secretary Byrne announced that no material change had been made in the national agreement. There were several changes in the articles of qualified admission. The words "black list" had been eliminated, and "ineligible" substituted. It was decided to give the minor leagues power to control and reserve players the same as the National Leagues and Association; that is when a player refuses to sign a contract the club can reserve him from year to year. He cannot, however, be indefinitely suspended. A rule was adopted prohibiting a minor league playing a game with any club that contains ineligible players, or has played with a club in which are ineligible players.

During the evening Mike Kelly came into the hotel. He was greeted by Director Soden, of the Boston club, and the two held an earnest consultation for some fifteen minutes. That there was something in the wind was evident, and it was rumored Mike was ready to sign the League contract, but no one could be found who would state positively that such was the fact.

Cronin Attorneys Quarrel.

CHICAGO November 11.—After the adjournment of the Cronin trial this afternoon there was an altercation between Attorney Forrest, of the defense, and Mr. Hynes, counsel for the State, in which some bitter personalities were exchanged. State's Attorney Longenecker wanted Cronin's clothes which were found in the sewer remanded to the custody of Police Captain Schuettler for cleaning and deodorizing, as the taint of the sewer was very perceptible in the courtroom. Forrest objected to Schuettler, and insinuated that the Police Captain was not a proper person; that they should be placed in the charge of the Clerk of the court. Forrest's insinuations about Schuettler were taken up by Hynes and a personal dispute ensued, in which both gentlemen abused each other. Judge McConnell finally called a halt in the proceedings.

Iowa Returns.

DES MOINES, Iowa, November 11.—The official vote for State officers was canvassed in every county today. The *State Register* received full returns from eighty-six of the ninety-nine counties. They show that Boies (Dem.), for Governor, is elected by a plurality estimated at 6,000. The lowest vote on the Republican ticket, outside of Governor, was Lieptenant-Governor, and the returns of eighty-six counties give Poyneer (Rep.), 150,031; Bestow (Dem.), 152,548. The probable estimate of the thirteen remaining counties, basing the estimate on the vote for Hutchison, who is behind Poyneer, gives Poyneer the election by about 500 plurality. The rest of the Republican ticket is therefore also elected by a plurality of from 1,000 to 3,000.

Bridge Down at Johnstown.

JOHNSTOWN, Pa., November 11.—The long bridge connecting Cambria City and Millville was entirely demolished this morning by the high water. The loss will greatly retard the removal of the dead from the Morellville cemetery to a permanent resting place in Prospect cemetery.

EASTERN HAPPENINGS.

Frances Willard Re-Elected by the W. C. T. U.

HER GIFT TO THE SOCIETY

Blizzards Raging in Dakota, Kansas and New Mexico—Terrible Suffering.

[Associated Press Dispatches to the HERALD.]

CHICAGO, November 11.—Miss Francis E. Willard was re-elected President of the National W. C. T. U. this morning. The opposition to Miss Willard did not make any effort to defeat her re-election. It would have been useless to have attempted it, as out of the 463 authorized to vote, 127 were appointees of Miss Willard's executive committee. When the informal ballot was counted 430 of the ballots bore Miss Willard's name. Nine were cast for Mrs. Foster, some for Mrs. Mary H. Hunt, of Boston, some for Mrs. Woodbridge and some were blank.

A motion was made then that the Secretary cast the ballot of the convention for Miss Willard. This was done, and that lady was escorted to the platform, where she was greeted with an enthusiastic reception. Miss Willard said she was sure many ladies had voted for her who were not in sympathy with her methods. She took this to mean that they expected her to try to keep peace. She would try; yet standing true to the light that shines upon the W. C. T. U., she felt that she was put under a blessed restraint by what had been done.

A few department reports were read, and the election of other officers deferred.

THE MORTON MATTER DISMISSED.

There was another brief spat over the Morton saloon license question at the afternoon session. One of the delegates read a telegram from someone in the East reasserting the statement that a license for a bar-room was taken out by Morton's manager.

Mrs. Hoffman rose to speak, but Mrs. Z. G. Wallace shut off further discussion by the introduction of this resolution: "Inasmuch as Vice-President Morton occupies the second position in authority in an administration that favors the policy of high license, I move that the whole matter be dismissed from the consideration of the convention, as he could not have done otherwise without rebuking the policy of his party." This was adopted.

Senator Blair, of New Hampshire, delivered an address.

The election of officers was then taken up. Mrs. Caroline B. Buell was re-elected Corresponding Secretary, Mrs. Mary A. Woodbridge Recording Secretary, and Miss Esther Pugh, Treasurer.

MISS WILLARD'S GIFT.

Mrs. R. R. Johnston, President of the California Union, led the prayer-meeting, at the conclusion of which Miss Willard said that from the sale of her book, "Glimpses of Fifty Years," there remains due her a balance of $2 900, which she would donate to the W. C. T. U. Great applause followed. Miss Pugh called for order, and moved that the convention should not accept this money. Miss Willard had earned it by her own hard work. The motion was seconded, but Miss Willard refused to put it to the house. Miss Willard's gift is one of the largest ever tendered to the society.

Mrs. Mary H. Hunt spoke on temperance work in colleges, and said the college department of the society was about to address a letter to the faculties and Presidents of American colleges, asking them to forbid the drinking of wine and liquors at class banquets and college suppers.

Mrs. Forbes read the report of the Women's Temperance Publication Association, which did a business of $163,000 last year.

Prof. Dickey, Chairman of the National Committee of the Prohibition party, spoke briefly about his belief in prohibition, woman's ballot and the W. C. T. U.

Mesdames Carhart and Potter, fraternal delegates from the Home Missionary Society of the M. E. church, urged concerted action.

Mrs. Bradley, of London, representing the White Cross and White Shield Societies, described the work in England. A number of other brief addresses were made, among them one by Mrs. Laura Haviland, the quakeress, who is 80 years old and still working for temperance.

THE EVENING SESSION.

During the evening session the national oratorical contest for the first diamond medal offered in the Demorest series of prizes, occurred. The contestants were Miss Mabel Underhill, of New York; Master Ray Sudwick, of Michigan; Miss Alice Hecklinger, of New York; Miss Minnie Ettington, of Lone Prairie; Eunice Mellville, of Minnesota; Ollie Hiatt, of Kansas, and Daisy Stoddard, an eleven-year-old girl from Nebraska. She delivered a prohibition address entitled "Liquor, an Outrage," and was awarded the prize amid great applause.

General Neal Dow spoke at some length. He denounced the non-partisan element in the W. C. T. U., and said the only course the organization could take with honor is the straightforward support of prohibition. The old parties are irrevocably committed to the license policy.

The Executive Committee held a long session tonight, considering the charges of the Presidents of the Minnesota and Illinois Unions against the President of the Iowa Union. The outcome of the deliberations could not be learned tonight.

THE SNOW BLOCKADE.

Further Reports of Suffering During the Late Blizzard.

TRINIDAD, Col., November 11.—Various parties who spent ten days in the snow blockade between Emery Gap and Folsom, New Mexico, arrived in the city today. They report the suffering of men and animals fully as great as has been reported. Patrick Casey, an engineer, was eleven days making the run from Trinidad to the Texas line and return. Two days and nights he was without food, except one meal he made on a jack rabbit caught in the snow. Seventy-five men shoveling snow at Mount Dora were cut off from food two days and nights. They got some sheep out of the snow, roasted and ate them. A delayed passenger train was cut off from eating stations three days. They drew on the express cars for food supplies. The laborers who shoveled snow, when hungry tapped freight cars containing canned goods, with an iron chisel or other tools. A hungry man would knock a hole in a can of corn or tomatoes and then drink the can empty. Sometimes this raw food was frozen, but it went among men so hungry. Two live goats were being shipped in a caboose and the hungry men cut their throats and ate them raw. Report says a sick man, traveling with two children, lay on his back two days helpless; he had only crackers for nourishment. A sheep grower near Ute creek, near Garcia, is reported to have lost 5,000 sheep from a flock of 8,000. Engineer Lyon said that he saw more real destitution during the ten days of this snow blockade than in all his life before. The road was opened by a rotary snow plow, but remained open only a few hours. This morning snow blocked the cuts again, and the passenger train due here from the south this forenoon is stuck in the snow tonight. Altogether the blizzard has been a terrible one. None of us ever saw or heard of such a one in Southern Colorado or New Mexico. It was a Dakota storm that got off its range and struck an unsuspecting people. President Morgan Jones, of the Fort Worth road, was himself a passenger from the scene of the blockade today.

The latest report from Clayton, N. M., says: Tidings from the small towns and ranches off the railroad confirm the reported loss of life and property during the last storm. From Tramperas comes the news that three Mexican herders, George Pinard and two companions, perished the second day of the storm. Lujan Brow, of Seneca, lost one herder, name unknown. He was herding horses in the San Rafael district for Mr. Wright. He and two other men left their horses and started for a place of shelter. Becoming numb, he fell and perished. His companions were too much exhausted to help him. The total loss of life so far numbers nine souls. Several more are missing. Their friends are anxiously searching for them. The loss of sheep in and around this place alone is 26,000 head. Several large herds on the creek have not yet been heard from. The loss in cattle will not be as heavy as at first supposed, unless cold weather continues. Snow began today again, and continues to fall tonight. About eight inches of new snow on top of the twenty inches already on the ground, makes it impossible for the railroad folks to keep the tracks clear. They succeeded in getting trains through yesterday, but are all snowed up again tonight, and the cold is intense, being almost down to zero.

Snow Storm Raging.

MINNEAPOLIS, November 11.—A violent snow storm is raging in South Dakota. It is drifting considerably.

SANTA FE TRAINS DELAYED.

DENVER, Col., November 11.—It is snowing today along the Atchison, Topeka and Santa Fe west of the Glorieta mountains, and all trains are delayed six to ten hours.

BLIZZARD-STRICKEN KANSAS.

KANSAS CITY, November 11.—Dispatches from Southern and Western Kansas state that the blizzard is sweeping over that country. The wind turned to the north early in the evening, and brought with it snow, which in some localities is drifting badly. At Arkansas City, near the Indian Territory line, a regular "norther" is reported. At Syracuse the blizzard is at its height. Abilene reports a severe wind and snow.

British Delegates Fall in Line.

WASHINGTON, November 11.—Immediately after the International Marine Conference had been called to order today, Delegate Hall called attention to the fact that at the time the British delegates to the conference were appointed they were instructed to discuss only General Divisions Nos. 1 and 3 of the programme as prepared by the delegates from the United States, because Great Britain was of the opinion that the scope of the programme was too extensive; but in view of the marked progress that has been made, the delegates had received instructions from Her Majesty's Government to engage in the consideration of the various other divisions of the programme prepared by the delegates from the United States. This announcement was received with applause.

Elizabeth Races

ELIZABETH, N. J., November 11.—Five furlongs—Fordham won, Blue Rock second, Express third; time, 1:08¾.

Three-fourths mile—Trestle won, Benefit second, Oregon third; time, 1:22½.

Three-fourths mile—Harrisburg won, Bohemian second, Faciel third; time, 1:22¾.

Mile and a quarter—Now or Never won, Dunboyne second, Glendale third; time, 2:22¾.

Three-quarters of a mile—Golden Reel won, Glenmound second, Bradford third; time 1:21¾.

Mile—Puzzle won, St. Nick second, Valentine third; time 1:30.

Competing for Coast Traffic.

CHICAGO, November 11.—It is stated on good authority that the Rock Island road has made satisfactory arrangements for competing with the Northwestern-Union Pacific combination for Pacific Coast traffic. President Cable was successful while in New York in securing allies for a transcontinental combination, and only the minor details of the plan remain unsettled. The same authority says the facts will be given to the public in a few days. President Cable refuses as yet to make any statements.

The Kansas Defaulter.

MANHATTAN, Kan., November 11.—An expert worked all day today attempting to open the safe of the defaulting County Treasurer Fortner, who is now in Canada, but could not force the lock, and the amount of his defalcation is not yet known. The County Commissioners, however, estimate his shortage at $30,000. Fortner speculated considerably in real estate and built two stove foundries, one being at Des Moines, Iowa. It is supposed that the county's money went into these enterprises. Fortner's bond amounts to $125,000, and his property has all been turned over to his bonds men.

The Corn and Potato Yield.

WASHINGTON, November 11.—The official returns for November to the Department of Agriculture relate to the yield per acre and quality. They make the rate of production of corn the full average, slightly above 26½ bushels per acre, and the quality medium. The returns of potatoes make the yield 76 7 bushels per acre.

A Close Squeeze In.

COLUMBUS, Ohio, November 11.—Official returns from sixty counties received at the Secretary of State's office and the other twenty-eight counties on telegrams from officials of the counties, show that the plurality of the Republican candidate for Lieutenant-Governor will be 131. These figures will not vary from the final result. The Republicans elect all of their State ticket, except Governor.

Submitted on Error

WASHINGTON, November 11.—In the Supreme Court today, case No. 1,198, the Oregon Improvement Company, plaintiff in error, vs. the Excelsior Coal Company, was submitted pursuant to the 20th rule by Sidney N. Smith, for plaintiff in error, and by H. J. Schrivener, for defendant in error.

THE PAN-AMERICANS.

Interviews with Some of the Delegates.

THEIR FIRST JAUNT COMPLETED.

They Think This is a Great Country. Sight-Seeing in the City of Brotherly Love.

[Associated Press Dispatches to the HERALD.]

PHILADELPHIA, November 11.—The first journey of the International American tourists being practically ended here, an Associated Press representative today sought from a number of delegates an expression of their ideas. Judge Alfonso, delegate from Chili, said his attention had been practically fixed upon the industries which produce objects necessary to railways, because there is a great deal of railway construction in his country. He believes the commerce of this country with Chili will improve if American producers make known their productions by establishing agencies in that country. An increase of communication and cheapening of prices of transportation will largely contribute to the same result. He believes in the probability of a railroad through the three Americas, and thinks its advantages would be considerable. Great embarrassment to trade arises from the complicated customs methods of the United States, and he thinks a uniformity of customs regulations upon the simplest basis should be established. The coming conference will contribute powerfully to the union of American nations.

General Peraza, of Venezuela, said the journey of the delegates had found a practical solution of many commercial problems between the American countries. It is the conviction of most of the delegates that the main difficulty in developing mutual trade consists in the lack of good communications. "The trip," said General Peraza, "has proved this much—that all previous opinions regarding blood and language as barriers to a perfect understanding between nations are discredited by facts."

Minister Romero, of Mexico, who has resided over twenty years in Washington and traveled much throughout the country, spoke of the wonderful progress in the West, and had also been struck by the interest displayed everywhere in the subjects which the conference will discuss. He thinks a great deal has been gained by calling the attention of the people of the United States to the resources of the other countries in this hemisphere, and that the international railway scheme is feasible and will before long be undertaken.

Delegate Castellanos, of San Salvador, said increased accommodations for commerce were absolutely necessary, and he should advocate the payment of subsidies to transportation companies. A uniform standard of money is needful. An international railway would, with pleasure, be aided by his country. The opening of the Nicaragua canal will be a great boon to San Salvador and all the other republics of the South.

Delegate Celaya, of Honduras, said he had been most impressed by the extraordinary energy of the people of the United States, who never seem to tire of work, and whose ambition to excel knows no bounds. He thinks our prosperity largely due to the development of the iron industry, scientifically applied to machinery and railways, two things in which he thinks the United States is unquestionably ahead of all other nations. He strongly favors an international railroad.

SIGHT SEEING IN THE QUAKER CITY.

PHILADELPHIA, November 11.—The International Americans started out this morning on a round of sight-seeing. The first point visited was Wanamaker's mammoth dry goods and notion establishment. The delegates next visited Sellers' machine shop and the Baldwin locomotive works, where luncheon was spread.

Explosion of Flash Powder.

PHILADELPHIA, November 11.—An explosion of flash powder occurred at the chemical manufacturing establishment of Wiley & Wallace, this afternoon, by which three men were instantly killed, one fatally, one seriously and another slightly injured. The force of the explosion shook the houses in the neighborhood. Thirteen girls and a number of men were employed in the upper floors, and they were panic stricken by the shock. The girls attempted to jump from the windows and some of them fainted, thus adding to the excitement. The building and stock were badly damaged, all of the windows and bottles being smashed, the lower floors torn up and walls damaged. It is supposed the explosion was caused by Joseph Wiley in pouring a bottle of flash-powder into a sink. Wiley was the senior member of the firm, and leaves a wife and several children.

Cotton Oil Trust Officers.

NEW YORK, November 11.—At a meeting of the Board of Trustees of the American Cotton Oil Trust, held today, the resignations of J. H. Flagler as President and J. Moss as Treasurer of the board were accepted. Judge Aldridge was unanimously elected President, and the election of a Treasurer was postponed until next meeting.

The Cherokee Council.

TAHLEQUAH, I. T., November 11.—The Cherokee Council today took up the matter of the sale of the outlet to the Government. It was referred to the Committee on Foreign Affairs, which is composed of ex-Chief Ross, F. H. Mayes, brother of Chief Mayes, and Stephen Tehe, all of whom are opposed to the sale of the land.

They Ate Poisoned Cabbage.

LOGANSPORT, Ind., November 11.—The family of John Cassey, consisting of five persons and three guests, were yesterday poisoned by eating cabbage sprinkled with Paris green. It is feared that two or three of them may die.

A SUMMER HEALTH RESORT.

All the Elements Found Here, In and About Los Angeles.

[By William H. Dukeman, M. D., Los Angeles.]

Physicians in search of climatic aid have been led to send their patients to the various summer places of note, such as the Catskill and Adirondack mountains of New York; the White mountains of New Hampshire; Berkshire, Mass.; Atlantic City and Long Branch, N. J.; Aiken, S. C.; Asheville, N. C.; Denver, Col., and numerous other places at home, as well as many renowned places abroad.

After careful study of this climate, I will attempt to show that we can add to the list a health resort of superior advantages, the Pacific Slope of Southern California, and particularly as a summer resort. A visit to this sunny land of a section of country lying along the Pacific Coast, situated between latitude thirty-two and thirty-five degrees north, and between longitude one hundred and seventeen and one hundred and twenty degrees west, and comprising a portion of each of the four counties of San Diego, Los Angeles, Ventura and Santa Barbara, very favorably impresses the writer of the superior natural sanitary advantages offered, as being an almost perfect health resort.

Much has been said and written in reference to this section of country, as being a very favorable winter resort But as a summer resort it is far superior. Both seasons, however, have their own peculiar advantages, and as a winter resort it has no equal. And Southern California is rightly termed "the sunny land," "the land of blue sky," "the paradise of the world."

In speaking of this, I have reference to that slope of land along the coast, from the city of San Diego to Santa Barbara, extending eastward for fifty miles from the coast to what is known as the Sierra Madre mountains, including the fertile valleys and undulating foothills and mountain spurs, until an elevation of 6,000 feet is reached; and in which is contained the prosperous cities of Los Angeles, San Diego, Pasadena, Santa Barbara, Santa Ana, etc., and the seaside resorts of Santa Monica, Long Beach, Coronado and Catalina island, at which places bathing in the surf of the Pacific gives new charm and zest to our wearied existence.

Let us carefully make note of the following tables, as compiled from the United States Signal Service Reports of the Los Angeles station.

From the above tables we learn that the temperature for the warmer six months is a very few degrees higher that the colder six months; that during the heated part of the day the mercury runs very little higher during the summer than during the winter; that the mean relative humidity is comparatively lower in summer than in winter; and we have more clear and fair days, and less cloudy days, and no rainy days in summer, giving us every day to be out of doors.

From the above tables we learn that during the warmer six months we had, out of the 184 days, 100 clear days, 68 fair days, or 168 sunshine days, and only 16 cloudy days. Of the 16 cloudy days, only on six different days did rain fall; three light showers occurred in daytime, and three light showers at night. During these six warmer months we find that the highest temperature was only 98 degrees Fahrenheit, and from United States Signal Service reports I find that it reached this point but twice, once in the month of September and once in the month of October. And on but very few days did the temperature run up in the nineties. Generally the temperature, during the hottest part of the day, rarely reaches 95 degrees Fahrenheit, and this always occurs between the hours of 10 a. m. and 2 p. m., after which there is a cool breeze blowing from the ocean. The heat, therefore, is at no time oppressive, but the weather is always comfortable, always cool in the shade; and as night approaches it grows from ten to twenty degrees cooler, making it very comfortable, and necessary at all times of the year to sleep under blankets. As the nights are always cool, one gets good, restful sleep, from which he awakes refreshed. It is generally remarked that a person requires more sleep in this climate than in a colder one—at least he is inclined to sleep more, and the consumptive rests in peace. It is to be noticed that we have no foggy days. But at certain times of the year, as night approaches, a fog blows in from the ocean, and sometimes in the morning we have a high fog, having the appearance of being cloudy. The relative humidity falls as the temperature rises, thus relieving us of that depressing feeling during the heated term. Take any given day, the temperature at 7 a. m. being 70 degrees Fahrenheit, the relative humidity is about eighty-five per cent. From 10 a. m. to 1 p. m., the hottest part of the day, when the temperature may be 85 or 90 degrees Fahrenheit, the relative humidity will be as low as fifty-five or sixty per cent.

From this we learn why the heat is never oppressive, and why sunstrokes never occur, and why one does not sweat away in perspiration and seek the ice-cooler for comfort.

From the above table it will be seen that there are only four of the six warmer months where the average temperature reaches only 67 degrees Fahrenheit. And we also learn that the mean temperature for the six warmer months, for the past ten years, has been at the average standard of only 67 degrees Fahrenheit. The months of May and October are of about the same temperature, or several degrees cooler, averaging about 62 degrees Fahrenheit for the past ten years.

Here, in the six warmer months, we find comfort and peace from oppressive heat in a balmy climate. The clearness and purity of the atmosphere is remarkably refreshing and invigorating. There are no windy, nor wet, nor damp, nor foggy days, which gives us every day to be out in the open air, inhaling a pure aseptic atmosphere. Dr. Bodington, of Warwickshire, forty years ago, said: "To live in, and breathe freely, the open air, without being deterred by wind or weather, is one important and essential remedy in arresting the progress of phthisis."

Regarding the attractiveness of the scenery, those who have travelled much and visited this section of country are at once captivated with its grandeur and beauty, and generally concur in the opinion that there is no place so charming. It abounds in majestic mountain heights and cliffs, and romantic cañons and ravines, and fertile valleys of exquisite beauty, and rippling streams finding their way from the mountains to the great Pacific. Los Angeles, from its central position, can boast of many attractive drives over good roads to local places of interest, over rounding bluffs and beautiful valleys, to points commanding views of billowy hills and distant amphitheatre of mountains, of most beautiful scenery, and a charming foothill drive to the ocean.

Los Angeles is a beautiful, thriving city of about 80,000 inhabitants. The principal streets are paved with asphalt or bituminous rock, and are kept clean by being swept clean every night. An outfall sewer to the ocean is soon to be constructed.

The resident portion of the city contains some of the most beautiful homes in America. They are surrounded by large green lawns, laid out with exquisite taste and beauty, and contain a variety of evergreen trees and palms, and semi-tropical plants and flowers of all descriptions. There is a beautiful park in the heart of the city, and several other parks are being laid out and decorated in an elaborate manner.

The city contains numerous finely constructed private hotels for the accommodation of the tourist and invalid, built in the resident portion of the city, away from the noise of the business portion of the city.

Seventeen miles westward from Los Angeles is the seaside resort, Santa Monica, where surf-bathing in the warm coast stream is most enjoyable, and can be indulged in every month in the year. Twenty miles southward is the seaside resort, Long Beach, and five miles from this, westward, is the Port of San Pedro, where a steamer awaits the tourist for an ocean voyage of thirty miles, to Catalina island, which place is a rapidly growing, popular summer resort. Good hotels with good accommodation will be found at each of these places, open to tourists during the summer months.

About one hundred miles southward from Los Angeles is Coronado Beach, with its renowned Hotel del Coronado of 750 rooms, beautifully situated, with grounds laid out with exquisite taste and beauty, and wide, magnificent views of mountain, ocean and bay scenery, and whose surf-bathing is most pleasant and enjoyable, and where the sunny days pass away almost like a dream.

Regarding the healthfulness of this section of Southern California, statistics prove it to be the most healthful spot in America. From the Board of Health reports of the prevailing diseases, we learn that cholera infantum is an almost unknown disease among the little ones, which in our eastern cities carries away thousands upon thousands during the summer months. Diarrhœa and dysentery, which also swell the death-list up in the tens of thousands, are indeed of very rare occurrence, and the fear of the death of the babe from these diseases, by those mothers who have lived East, is a thing of the past with them.

As there is no stagnant water nor damp soil for the decomposition of vegetable matter for the development of malaria, intermittent and remittent fevers are equally as rare.

The purity of the water, which is derived from the mountains, which is free from contamination of sewerage and decomposed animal or vegetable matter, gives us almost perfect immunity from the more common zymotic diseases. When, however, such diseases do occur they usually run a mild course.

The even state of the temperature, with no days of oppressive heat; the purity of the atmosphere, with a low relative humidity; and every day to be out of doors, makes this section of the country a most desirable one for consumptives. A patient with phthisis should come here in due time and remain at least two or three years, when in all probability, with due care, the progress of the disease will be arrested. Many such persons I see daily. The same may be said of those who are afflicted with diseases of the kidneys.

Having a climate here which is conducive to sleep, and which acts as a sedative to the nervous system to the many who are afflicted with nervous trouble, the result of overwork, or from other causes, for them no better place can be found on the face of the globe.

A case of pneumonia, which recently occurred in my practice, I here desire to report, as it will give evidence of the mildness and aseptic condition of the atmosphere, and show how such a fatal disease as pneumonia can be successfully treated in this climate. The patient, a young man, 22 years of age, had been working on street paving. On the night of May 2d he had the initial chill and pain on his right side below the nipple. He was very anxious to keep at his work, and did so until the 8th inst., when, almost exhausted and greatly emaciated, he consulted me for shortness of breath and soreness of the right side of his chest. On examination I found there was consolidation of the whole of the right lung. He never kept his bed, but passed most of the day out in the open air, sitting in the park, as he lived only one block away, and walked to my office every day, a distance of three blocks. He gradually recovered, and in the course of four weeks he went to work again as well and strong a man as ever.

Railroad Conductors,

ENGINEERS, FIREMEN,

BRAKEMEN, GRIPMEN,

—AND—

All that Ride Continuously,

TAKE NOTICE.

It is a well-known fact that nine out of ten of all classes of people whose business calling is railroading, where they ride day in and day out, will sooner or later complain of severe pains in their backs. Caution. What does this mean? Ask yourselves the question. We will answer it for you. Your kidneys are fast becoming diseased, and if you neglect them there is one result—certain death. We have had many cases, and hold testimonials of railroad men that have taken their trouble in time, and by the use of the greatest vegetable remedy that has ever been introduced in the world, viz: THE GREAT SIERRA KIDNEY AND LIVER CURE, have been cured and their kidneys strengthened to such an extent that they can pursue their vocations without fear. This wonderful remedy is becoming daily the most popular of any Kidney and Liver Cure that ever has existed. Give it one trial and you will send to us a testimonial to add to our large and fast increasing list.

PRETTY GIRLS AT WORK.

Something About the Clerks in the Treasury Department.

Some of the prettiest women in the country are right here in the Treasury Department. A great many of them are Washingtonians, but as a class they represent the beauty of the whole country. They are blondes and brunettes, short and tall, and medium; some plump, some queenly, some of lithe and willowy form—they are fairly the types of the several great cities and about all the States of the union. In that one building, covering four blocks, is to be found more beauty than a hunt through many large cities might discover. A large portion of the female clerks are young, or at least on the minus side of the line beyond which lies old maidhood. Office life is not promotive of longevity, and many of the elderly women have died off or reached an age beyond business.

Those who have come into the department within the past four or five years are mostly young women, who have just passed through the normal schools and have entered the Government service through the Civil Service examination. They are a bright lot of young women. In many cases it is, perhaps, that they are the prettiest girls of the family, which inspires them with an ambition beyond the drudgery of housework or the trials of a schoolmarm, and induces them to strive for the more agreeable work and better pay under the Civil Service. And this may account for there being such a preponderance of good looks.

They are not, as a rule, gaudy beauties frescoed and decorated by art, though, of course, there are some of that type. They are usually of a refined type of good, sensible, pretty girls—a little beyond girlhood. They always dress in good taste, though not generally in an expensive style. A designer of fashions might get many valuable points from the female treasury clerk.

During the ordinary working hours the visitor to the Treasury will not see many of these young women. They are apt to be hard at work behind closed doors, or just shut from view by green baize screens, over which one cannot see without the aid of a chair or a stepladder. The desks are usually provided with these screens, otherwise they would be annoyed by the gaze of visitors passing through the corridors, who would probably be numerous if the screens were not there.

But during the half hour allowed for lunch a swarm of pretty female clerks rush about the corridors to exchange bits of gossip or to go to tea. Washington may get her reputation for her beautiful women from the throng that appears on the avenue on the way home from the departments after 4 o'clock.

Whenever there are any number of people on a visit to Washington the Treasury is generally the center of curiosity, on account of the popular interest in money. Visitors are always interested in the place where the money is handled, and some one must be delegated to take charge of them. In view of the great number of these visitors and the prospect of a great many more when the Knights Templar come here for their convention, a number of young women of the departments have been designated regularly to act as guides through the Redemption Agency, where the old notes are counted and destroyed. —[Washington Star.

No Historic Background in the West.

Says a prominent New England clergyman who has been visiting in the West: "In the West I find more wealth, more generosity, more enthusiasm and aggressiveness in church work, and, believe me, more genuine culture than in the East. But I do miss a historic background. I miss the old. I miss on the banks of the Mississippi what one misses who comes from Old England to New England—a good deep stratum of history. There is too much nature for humanity or too little humanity for nature."—[New York Tribune.

An Auction Sale of Oil Paintings,

There will be a grand auction sale of the Sawtelle collection of oil paintings this Tuesday, November 12th, at 10 a. m. in the court of the Bryson-Bonebrake block. There will be seats for all who attend the sale. This is the best collection of paintings ever sold in Southern California, and consists of a large number of landscapes, fruits, flower pieces and rare figure paintings, some of them repliques of the old masters, which will all be sold without reserve, as Miss Sawtelle intends going to Europe.

BEN O. RHOADES, Auctioneer.

Ill Winds

That blow "naebody any good" are plenty on the storm-vexed Atlantic, to say nothing of the occasionally typhoon-swept Pacific. The hapless voyager, when shaken up by the heavings of the "briny," should take that pleasantest and most salutary of doses, a wineglassful of Hostetter's Stomach Bitters, the finest stomachic and tonic that ever warmed, regulated and quieted the human interior. Railroad jolted and steamship shaken travelers will exercise a wise prevision by supplying themselves with a sufficiency of this incomparable medicine for the journey. So will mariners, emigrants to the West, and others about to "seek fresh fields and pastures new." Malaria, the scourge of newly-cleared and mining districts, is completely conquered and surely averted by the Bitters. Liver, bowel and kidney complaint and incipient rheumatism it annihilates.

HOW MANY WAYS CAN THIS BE READ?

THE LOS ANGELES HERALD IS BY ALL ACKNOWLEDGED have been the prime factor in the discovery and making known of the resources of this section. To its sagacious outgivings more than to any other agency our marvelous development is attributed.

THE HERALD has from its inception watched with a single eye the budding industries of this portion of the State. For each good enterprise this journal has at all times had a word of cheerful encouragement. In spite of the skeptical, it has survived to see all of its earlier predictions fullfilled to the letter.

THE HERALD to-day takes the lead in all respects among the papers of Southern California. Its first care still is the material, intellectual and social interests of its section. It aims to be truthful rather than over-zealous in its publication of news; to be conservative rather than over-sensational, in its policy; to be clean and decent, respecting the sacred precincts of the home and fireside, rather than indecently salacious in its tone.

THE HERALD gets all the news from all quarters of the globe with promptness accuracy and dispatch. Its local staff is energetic and well-trained to miss nothing of real importance to its readers. It is always alive to all public enterprises.

THE HERALD still takes pride in aiding any legitimate material, intellectual or social movement which will benefit the people. No other journal in this section approaches it in those important respects.

The Grangers Expected at Sacramento Today.

SUNOL SOLD TO ROBERT BONNER.

The Fastest Trans-Pacific Voyage. A California Village Destroyed.

[Associated Press Dispatches to the HERALD]

SACRAMENTO, November 11.—William Johnston, President, and G. W. Hancock, Secretary of the commission appointed by the Governor to entertain the members of the National Grange, departed for the State line, where they will receive the excursionists today. The train carrying the visitors is expected at 6 a. m. It is expected that 150 members will arrive upon this train. The State Board of Commissioners have requested the officers of the State Grange past masters and members to recive the incoming patrons at the depot. The Assembly chamber has been handsomely decorated for the occasion of a banquet and reception there tomorrow night. The seats of the various States that are to be represented are among the decorations, while the floral features are elaborate. It is expected that between 500 and 600 will be in attendance before the close of the session, which will occupy at least eight days and probably a longer period. While nothing definite has yet been announced, it may be settled that public reception on the part of the citizens will occur Thursday evening in the State capitol. It is expected that Mayor Gregory, Governor Waterman, Senator Stanford and others will deliver addresses of welcome. The session will be formally opened at the Assembly chamber Wednesday, at 10 a. m.

TRANS-PACIFIC.

The Sailing Record Broken—China and Japan News.

SAN FRANCISCO, November 11.—The steamship Oceanic, Captain Kempson, which arribed from China and Japan today, sailed from Yokohama October 29th, and arrived in San Francisco this morning, making the trip across the Pacific in 13 days, 14 hours and 40 minutes, the fastest trip on record.

Floods in and around Ningo have rendered upward of ten thousand people homeless, and they being in a state of destitution, went in a body to the magistrate of the Zee-Chee district and pleaded for help.

The Shanghai *Mercury* says: By the latest news received we learn that a village near Wenchow has been washed away by the floods, and five hundred families drowned.

At Yokohama, Japan, up to the 20th ult., there had been arrested in connection with the attempted assassination of Count Okuma, thirty-five persons. At Fukuoka thirteen persons have been arrested.

Sunol Purchased by Robert Bonner.

NEW YORK, November 11.—Robert Bonner has purchased the great 3-year-old Sunol from Governor Stanford, of California. Sunol, on Saturday last, trotted a mile in the unparalleled time, for 3-year-olds, of 2:10½. Bonner's offer for Sunol was made and was accepted by Governor Stanford before she made this great performance. Sunol has also the fastest record ever made by a 2-year-old, she having trotted last year in 2:18. The granddam of Sunol is by a thoroughbred horse, as are also the granddams of Maud S and Jay-Eye-See, thus showing that the three greatest trotters that the world has yet produced have thoroughbred blood, which gives them their great endurance, Maud S having a record of 2:08¾; Jay-Eye-See, 2:10, and Sunol 2:10½ when she is only 3 years old.

A Village Burned.

FOREST CITY, Cal., November 11.—The village of Alleghany, Sierra county, was today almost wiped out by fire and a number of families rendered homeless. The fire started in Bennett's hotel, and in a short time had spread to the adjoining buildings, destroying the entire business part of town, together with a number of residences. The postoffice and Western Union Telegraph office were entirely destroyed. A high wind was blowing at the time, and all efforts to subdue the flames were fruitless until the fire had burned itself out. The total loss is estimated at $25,000, and as far as known there was no insurance. The population of Alleghany is about three hundred.

Legal Sprouts.

SACRAMENTO, November 11.—The Supreme Court met in this city today. The entire day was spent in examining applicants for admission to practice law, there being twenty-seven in the class. The applicants were examined separately. Among the first questioned was a lady, Alice T. Mills, who is said to have passed a most creditable examination.

Gone Up in Smoke.

ORANGE, Cal., November 11. — The Hotel de Blount, at El Modena, was burned this morning. The fire originated on the roof, where tinners were working. Loss, $13,000. The hotel two years ago was built by George H. Blount, and afterward purchased by Robert and John McFadden, the present owners. The insurance is $200 each in the Security and Long Island companies.

A Week to Consider.

SAN FRANCISCO, November 11.—At a meeting of the directors of the California Athletic Club tonight, it was decided to offer a purse of $3,000 for a fight to a finish between Jack Dempsey and Young Mitchell, and the men were given until next Monday to come to a decision.

Sam Jones' Secretary Sentenced.

SACRAMENTO, November 11.—Frank J. Lee, formerly Sam Jones' Private Secretary, after being held to answer in the Police Court this morning, on the charge of burglary for the theft of railroad tickets from the railroad office, pleaded guilty this afternoon and was sentenced to two years in San Quentin prison.

The Death Sentence.

SAN DIEGO, November 11.—W. Murray, who murdered Marshal Wilson, of Oceanside, July 4th, was sentenced to death today. The date of his execution has not been set.

Foraker's Going Out.

CINCINNATI, November 11.—In an interview with a *Commercial Gazette* reporter today, Governor Foraker said: "I am not going out of politics in the way I would be pleased to go out, but I shall be glad when I am out, and once more attending my own neglected private affairs."

THE CATHOLIC HOSTS.

Interesting Features of the Convention at Baltimore.

BALTIMORE, November 11.—Tonight a great reception, tendered the visiting prelates and other distinguished persons, was in progression at the hall occupied by the Catholic League's Congress today. The city was beautifully illuminated during the reception, particularly Cardinal Gibbons' residence and the homes of the Catholic laity in every quarter. In the reception hall the jam of people was almost suffocating. The welcome to the distinguished guests was delivered by ex-Congressman Roberts, of Maryland. While he was speaking two Indian chiefs in the full panoply of gayest feathers and embroidered many-colored blankets, were seen making their way through the crimson-vestured prelates, to where stood Cardinal Gibbons. The Indians reached for the hand of the noted ecclesiastic, and bending low, silently kissed his archepiscopal ring, while the spectators stood in wonder, finally breaking into cheers. The Indians were both Catholics, Chief Joseph, of the Flatheads of Montana, and Chief Whitebird, of the Sioux of Dakota. They were given seats of honor close beside the cardinal, with their traveling companion, Father Van Gorp, S. J., of the Rocky Mountain mission. Following the address of welcome came a reply on behalf of the prelates by Archbishop Elder.

The most extraordinary scene of the evening came at the conclusion of the reception, when the prelates, headed by the cardinal, made a circuit of the hall, shaking hands with the people, right and left, in the narrow passage. The display of enthusiastic devotion by the crowds was probably never equalled in this country. The bishops and archbishops, especially those from the West, Ireland, of St. Paul, Foley, of Detroit, and Riordan, of San Francisco, were seized from every side. How they got safely through the exuberant demonstrations of affection can never be accurately told.

A notable event was also in progress at Loyola College. It was the formation of a national alumni association from all the Jesuit colleges in the United States.

The resolutions which the committee of the Congress of Laymen approved late tonight, to be submitted to the convention tomorrow, are understood to be strictly confined to topics pertinent to the announced objects of the congress, as follows: The devotion of Catholics to the Constitution and laws of the land; the necessity of the independence of the Holy See; Catholic education for Catholics; Christian schools for Christian people; the duty of supporting Catholic journals, and encouraging in every way a wider diffusion of Catholic literature; the rights of Catholics to liberty of conscience; the freedom of religious worship in the army and navy, in all public and quasi-public institutions, the wisdom of encouraging emigration and the settlement by Catholics in proximity to church and school, or to settle in sufficient numbers together so as to provide one; the importance of Catholic societies being organized on religious and not on a race or national basis; sympathy with the cause of temperance, and the decent observance of Sunday, and finally the rights of labor and the duties of capital.

Our Grand Annual Silk Sale!

ONCE every year we take our entire line of Silks, Rhadames, Surahs, Gros Grains, Peau de Soies, Armures, Failles, etc., everything you can ask for in Silks, and close out the entire line, some at cost, some at 25 per cent. less than cost, some at fifty cents on the dollar. To keep an assortment in Silks, comprising every known kind, a merchant is liable to overstock, and that is just the predicament which we are now in. We have one hundred pieces to sell, hardly any two shades alike, and we are going to give you some wonderful bargains. We expect to sell every piece we place on our counters at the reduced prices, and it will pay you to buy at this time. You can save fully ten dollars on every pattern, and besides, we can give you any quality you can ask for.

A SURE THING.

The Connection With Salt Lake City Goes.

THE ENGINEERS FINALLY TALK.

They Visit Redondo—The Part That Thriving Port is to Play in the Scheme.

The visit of V. G. Bogue, the Chief Engineer of the Union Pacific, and H. M. McCartney, the Resident Engineer at Salt Lake City, to Los Angeles last week, turns out to have involved matters of great moment to this city and section. There need be no more doubts and questionings about the purpose of the Union Pacific to work its way through to the Coast in this direction. A line connecting Milford and Barstow is now in process of construction, and will probably be completed within a little over a year, certainly by two years. The track of the Santa Fe will be used for a time for connection with this city and the coast and with San Diego, but the ultimate plan of the road is a line of its own to all of these points.

In a conversation with a HERALD reporter last Saturday evening, Mr. McCartney said in a very vague way that he had "come in over the Atlantic and Pacific"—he did not say from where—and that he had unexpectedly met with Mr. Bogue in San Diego, and that the two of them had come to Los Angeles on some private business. He admitted, when the fact was put to him, that Mr. Bogue had come down from Milford to Barstow in a wagon, but he spoke of himself in a way to leave the impression that he himself had come by rail.

It now comes out that both the gentlemen came down to Barstow by wagon from Milford over the route which has been surveyed. They paid a brief visit to San Diego and got into this city Friday. The first man they hunted up was George Wright, the engineer, who, it is known, has been for some time in the employ of the Union Pacific making surveys on Rattlesnake island and between this city and the coast. The two visitors went to the Hollenbeck and took rooms there, but declined to register, and made it very plain that they did not care to meet any newspaper men. Several of the fraternity were on their track, however, and during the two days of their stay here a very entertaining game of hide-and-seek was played. McCartney was finally cornered and put through an interview which was a sort of a stand-off. He said nothing, but his way of saying it made it perfectly plain that something big lay back of his affable silence.

Mr. Bogue, it appears, is just one degree worse than Mr. McCartney. The latter talks, but does not say anything; the former does not even talk. He is known over the Union Pacific line under the sobriquet of "Dismal Jemmy," for the reason that he never smiles and seldom speaks. All efforts to get anything out of him proved unavailing.

Saturday afternoon and most of Sunday the engineers passed at Redondo Beach. Mr. Bogue is a personal friend of Captains Ainsworth and Thompson, and had he said anything about his visit there, would probably have alleged this as a reason. The two spent a good deal of time inspecting the harbor and gaining information about the possibilities of its development. On Sunday the party took a tug, and after cruising around in the waters of the Redondo harbor, they went around Point Firmin into San Pedro, and back to Los Angeles by the Southern Pacific. Sunday night they went north to San Francisco.

In conversation with several prominent railway men of this city Mr. Bogue stated very clearly how the case stood. The Union Pacific is backing the consolidated roads which are building the extension from Milford, and it proposes to put the work right through. Milford is on the Utah Central, 225 miles south by west from Salt Lake City. The extension has been surveyed and cross-sectioned beyond Pioche, in Nevada, to a distance of about 150 miles. There are no difficulties of any serious sort to be overcome in the construction, and there is no reason why the work should not proceed rapidly. The road will bring up either at Barstow or at Daggett. The route through Southern California has not been planned as yet. It is the purpose of the company to go to San Diego and also through Los Angeles to Redondo. This means that the Union Pacific plans to work with Messrs. Ainsworth and Thompson in the development of this beautiful seaport, and that ultimately it will prove to be one of the most flourishing of the ports of Southern California.

It will be noticed that the scheme as outlined necessitates the use, for a time, at least, of the Santa Fe track. It is understood that some time ago a contract was framed and signed by the proper representatives of the two roads, the Union Pacific and the Santa Fe, for the use of certain sections of the Southern California track by the Union Pacific line.

The information with regard to Redondo comes from an absolutely reliable source. It is certain that it is a part of the present plan to establish the harbor outlet for the road at Redondo Beach. Whether an independent line will be built or the narrow gauge road changed to a broad one, is not known, and indeed it may be questioned whether matters of this sort have been settled at all. An immense element of chance appears in all railway building, and opportunity rather than deliberate intention is frequently the potent factor that brings things one way rather than another.

The fact that it was the Union Pacific which was backing the consolidated roads in their effort to extend the Utah Central was developed at the beginning of the year when the franchise for the Salt Lake and Los Angeles line was signed by Mayor Bryson. It will be remembered that he refused to give his signature to the franchise for a road through the city along the river bank until he had received authoritative information that Messrs. Marble and Scott were merely acting as agents for the Union Pacific. The HERALD happened to be the first paper to bring this fact to light, and it appeared in a column article in the issue of January 5th. Since that time it has frequently been questioned—no sign of work appearing at either end of the line—whether the whole thing was not a scheme to get possession of a valuable franchise for the trifling sum, $6,000, which was put up as a pledge. One morning paper has gone so far as to frequently denounce the whole plan as a "fake." Exactly what are the relations between the Union Pacific and Messrs. Scott and Marble cannot now be stated, but it is now a fact beyond peradventure that the Union Pacific does propose to put in the very line which it was then stated they were backing. It is said that within a short space of time information will be made public with regard to the right of way of the line through this city, which will throw a good deal of light on the whole matter.

MRS. SCOTT'S DEATH.

An Inquest Held by Coroner Meredith.

Coroner Meredith held an inquest at Santa Monica yesterday upon the body of Mrs. Sarah A. Scott, the wife of a clerk employed at Sawyer's bakery, who died suddenly at her residence on Sunday morning last.

Three witnesses were examined—John W. Scott, her husband; Smith S. Scott, her son, and Dr. E. C. Folsom, who was called in after her death. From their testimony it was learned that about 10:30 o'clock on Sunday morning Mrs. Scott, who has been in ill-health for the past ten or twelve years, complained of a spasm of pain in the stomach. She told her son to apply a mustard plaster to the region of the pain, and as she was going to retire to her room, she asked him to tell his father to remove it should she be asleep when he returned home. She then went into her room, and leaned back upon the bed without removing her clothing. Her son also retired to his room to change his attire, and as he returned half an hour later he passed through his mother's room. Not being able to hear her breathing he raised the window shade, and was horrified to discover that she presented the appearance of a corpse, her lips being blue and her flesh white and cold. On feeling her pulse his worst fears were realized, and he notified his father. Dr. Folsom was called in, but he pronounced her as beyond all human aid. A glass containing some diluted essence of peppermint was found on a dressing table near the bed; but there was nothing to indicate that any other medicine or drug had been administered to the deceased by herself, although her husband said that she was accustomed to use morphine when attacked by similar spasms in the past. In accordance with the testimony of Dr. Folsom, who stated that in his opinion death was the result of natural causes or some drug taken to relieve suffering, the jury returned a verdict of death from natural causes.

SAYS HE GOT ROBBED.

An Old Man Who Went to a Bad Place.

There was a pretty large crowd up about Department 6 of the Superior Court yesterday. The attraction was the trial of one John Edwards before Judge Shaw by twelve good men and true. The charge against Edwards is that he robbed an old man named Dr. William Swigart of a gold watch and chain, a cane and some money. The old man was put on the stand. He looks like one who has seen a good deal of life, and that not on its sweetest side. He acknowledged on the stand that he had been a user of opium, but claimed he had stopped. He swore than on the 5th of August last he visited a house on Alameda street kept by a gang of yellow girls. While there he claims that he lost his property, and alleges that Edwards and one Willie Jenkins were the purloiners thereof.

After the doctor had finished narrating his experience at this den, John Parker Smith was put on the stand. J. Parker Smith was in the house at the time. He had all the appearances of seeing as much, or more, of the world, and from the same point of view as the doctor. He told how the doctor came there, called by name for one of the dusky sirens, and about the blandishments lavished on him by this black swan. There was quite a flock of these around the court-room. The case was on trial up to a late hour in the afternoon.

A Pleasant Occasion.

Last Thursday the Baroness Rogniat gave a garden party to seventy of the youngest children from the Catholic Orphan's Home. For this occasion the little ones arrived at 2 o'clock, and were, much to their delight, given free license to run all over the hills and pick all the flowers they desired. Mr. A. W. Lohn, the photographer, of East Los Angeles, photographed the group of the children sitting on the lawn under the palm trees. Each child will receive a picture. The ever gracious and most amiable Mrs. P. Davis, assisted by Mrs. F. J. Schallert, sang sweet melodies to the little ones, who listened with rapture to their lovely voices. At four o'clock the children partook of a delightful lunch prepared for them on the spacious verandahs. For this occasion Mr. J. C. Robinson graciously placed two of his cable cars at the disposal of the Sisters. The children presented a most beautiful bouquet to Mrs. Robinson, and the youngest children recited appropriate verses of thanks to their host and hostess.

New Cases.

J. W. Grayson sues C. White to recover $374 due on a note endorsed by the defendant.

D. A. Kughen sues the Los Angeles, Pasadena and Glendale railway and others for $1,600 damages alleged to be done by the road in passing along an alley in rear of his property.

Mary S. Barr sues J. S. Mills to recover $279 due on a note.

Edward Austin Rie and others sue the Los Angeles Refrigsrator Company for $4,160.03 due for machinery.

Alexander Grant sues M. M. Miller to annul a contract concerning a certain patent of the plaintiff.

Lu Wheat Smith sues Alice D. Austermell and others for $400 due on two promissory notes, and other relief.

Death of Mrs. Catharine J. Graves.

On Saturday last private advices announced the death of Mrs. Catharine J. Graves, the mother of J. A. Graves, Esq., of this city. Mrs. Graves died at her home in Santa Rosa. The lady had been a regular visitant to Los Angeles for some years past, wherein she disclosed to the many friends she made, the sterling and noble qualities of her nature. The news of her death will bring deep regret to acquaintances here, who extend their sympathy to the surviving husband and sons. The funeral services will be held at the residence of J. A. Graves, Alhambra, on Wednesday, November 13th, at 10 o'clock a. m.

Wanted to be an Angel.

CATARRH

Throat Diseases, Bronchitis, Asthma,

CONSUMPTION,

Together with Diseases of the Eye, Ear and Heart, successfully treated by

M. HILTON WILLIAMS,

M. D., M. C. P. S. O.,

With his new system of medicated inhalations combined with proper constitutional remedies for the liver, stomach, blood, etc.

Probably no system of practice ever adopted has been so universally successful as that introduced by Dr. Williams for the cure of catarrh, throat diseases, bronchitis, asthma and consumption.

OZŒNA.

Ozœna is the professional or technical name given to an advanced form of catarrh, in which ulceration has eaten through the membrane lining of the nose to the cartilage of the bone. Any case of catarrh may end in ozœna, but it most frequently occurs in those who are naturally scrofulous. The discharge takes place through the nostrils or through the throat, and is generally of a yellowish or greenish-yellow color, frequently tinged with blood, and almost always attended with an offensive smell. In the language of Dr. Wood, of Philadelphia, the disease is the most obdurate and disagreeable which the physician has to encounter. In bad cases the breath of the patient becomes so revolting as to isolate him from society, and render him an object of disgust even to himself.

In some cases pieces of bone become separated and slough off, leaving deep, unhealthy ulcers, which secrete a bloody matter, and are extremely difficult to heal.

After ozœna has continued for some time the sense of smell becomes impaired and often lost.

Deafness is one of the most common consequences, and results from its extension through the eustachian tube to the internal ear.

Pains in the head and over the frontal sinuses, impairing memory, and even insanity frequently springs from its extension to the brain. The greatest danger, however, because the most common, is that it will extend downward and affect the lungs. In most cases of pulmonary disease catarrh is present to some degree, and in many cases it causes a large share of the patient's discomfort.

Besides these grave consequences, all of which are liable to spring from scrofulous catarrh or ozœna, there are others which, if less dangerous, are sufficiently unpleasant. It occasions great unhappiness to thousands of both sexes by isolating them and preventing their settlement in life. An offensive running at the nose, with foul breath, is about as great a calamity as can befall young people. Every disease of this kind can be cured by our new system of practice.

The following are the distinguishing features of our mode of treatment.

1. A single application gives immediate comfort and relieves at once the most distressing and painful symptoms.
2. The hardened secretions are softened and removed causing the greatest amount of relief the sufferer.
3. The ulcerated surface is deodorized, every unpleasant smell is removed, and the breath is restored to its natural purity and sweetness.
4. The poisonous action of the disease upon the throat is neutralized and arrested and threatened consumption averted, and last of all a complete and radical cure fully established.
5. The applications employed can be made at home with perfect success and without interference with diet or business.
6. In all cases of catarrh, where the system suffers from the deleterious effects of scrofula or other vitiated condition of the blood, local treatment is invariably conjoined with constitutional remedies.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless, unless the disease has advanced to the chest and both lungs are seriously involved. The inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success.

The very best of references from those already cured.

HOW MANY WAYS CAN THIS BE READ?

THE LOS ANGELES HERALD IS BY ALL ACKNOWLEDGED have been the prime factor in the discovery and making known of the resources of this section. To its sagacious outgivings more than to any other agency our marvelous development is attributed.

THE HERALD has from its inception watched with a single eye the budding industries of this portion of the State. For each good enterprise this journal has at all times had a word of cheerful encouragement. In spite of the skeptical, it has survived to see all of its earlier predictions fulfilled to the letter.

THE HERALD to-day takes the lead in all respects among the papers of Southern California. Its first care still is the material, intellectual and social interests of its section. It aims to be truthful rather than over-zealous in its publication of news; to be conservative rather than over-sensational, in its policy; to be clean and decent, respecting the sacred precincts of the home and fireside, rather than indecently salacious in its tone.

THE HERALD gets all the news from all quarters of the globe with promptness accuracy and dispatch. Its local staff is energetic and well-trained to miss nothing of real importance to its readers. It is always alive to all public enterprises.

THE HERALD still takes pride in aiding any legitimate material, intellectual or social movement which will benefit the people. No other journal in this section approaches it in those important respects.

EXCHANGE REVIEW.

NEW YORK, November 11.—The stock market was feverish and irregular on a very moderate volume of business today, and while stocks, as a rule, were well held, the bears attacked some spots with such vigor as to force a material decline. The only changes of importance tonight are advances, 2⅛ in Manitoba and 1¼ in Jersey Central, and a decline of 1⅛ in Missouri Pacific.

Government bonds were dull and steady.

Petroleum opened weak at 108⅝, and after a light advance under light sales, declined to 197⅝. A reaction followed, on which the market closed steady at 108⅛.

Stock Exchange—Opening, 108⅝; highest, 109⅛; lowest, 107⅝; closing, 108⅛.

Consolidated Exchange—Opening, 109½; highest, 109½; lowest, 107⅞; closing, 108¼. Total sales, 817,000 barrels.

MONEY QUOTATIONS.

NEW YORK, November 11.—Money on call easier at 3@7 per cent.; last loan, 3c.

Prime mercantile paper, 5½@7½c.

Sterling exchange—Quiet and weak; 60-day bills, $4.80½; demand, $4.85.

Bar silver, 95½c. per ounce.

SAN FRANCISCO, November 11.—Silver bars, 96@96½c. per ounce.

ORDINANCE NO. 438.

(New Series.)

ORDINANCE OF INTENTION.

AN ORDINANCE OF THE MAYOR AND COUNCIL OF THE CITY OF LOS ANGELES, DECLARING THEIR INTENTION TO IMPROVE A PORTION OF HILL STREET.

The Mayor and Council of the City of Los Angeles do ordain as follows:

SECTION 1. That the public interest and convenience require that Hill street, in said city, between Second street and Pico street, and including all intersections of streets, be side walked and curbed; that it is the intention of the Council of said city of Los Angeles to order the following work to be done, to wit:

1st. That said Hill street, in said city, from the south curb line of Second street to the north curb line of Pico street, except that portion of the sidewalk already paved with cement and accepted by the city, be sidewalked with cement, in accordance with plans and specifications on file in the office of the City Clerk of the city of Los Angeles for constructing cement sidewalks.

2d. That a cement curb be constructed along the line of roadway of said Hill street (except that portion of the cement and granite curb already laid and accepted by the city) from the south curb line of Second street to the north curb line of Pico street, in accordance with plans and specifications on file in the office of the City Clerk of said city for constructing cement curbs.

SEC. 2. The Superintendent of Streets shall publish a notice of this proceeding each day for six consecutive days (after the publication of this ordinance) in the Los Angeles DAILY HERALD, the official newspaper of the city, and shall post copies of said notice along the line of said proposed improvement at a distance of not to exceed three hundred feet apart, and if within ten days after the expiration of the publication of said notice the property owners along the line of said improvement amounting to one-half of the frontage thereof, shall file with the City Clerk a written objection against said improvement, then and in that case said improvement shall not be proceeded with.

SEC. 3. The City Clerk shall certify to the passage of this ordinance, and shall cause the same to be published for two days in the Los Angeles DAILY HERALD, and thereupon and thereafter it shall take effect and be in force.

I hereby certify that the foregoing ordinance was adopted by the Council of the City of Los Angeles at its meeting of November 5th, A. D. 1889, by the following vote:

Ayes—Messrs. Brown, Hamilton, McLain, Summerland, Shafer, Van Dusen, Wirsching and President Frankenfield.

Noes—None.

FREEMAN G. TEED,
City Clerk and ex-officio Clerk of the Council of the City of Los Angeles.
By GEO. E. SEIP, Deputy.

Approved this ninth day of November, 1889.

HENRY T. HAZARD,

ORDINANCE NO. 432.

(New Series.)

AN ORDINANCE DECLARING THE INTENTION OF THE MAYOR AND COUNCIL OF THE CITY OF LOS ANGELES TO CHANGE AND ESTABLISH THE GRADE OF THE WEST SIDE OF OLIVE STREET FROM FIRST TO SECOND STREETS.

The Mayor and Council of the City of Los Angeles do ordain as follows:

SECTION 1. That it is the intention of the Council of the City of Los Angeles to change and establish the grade of the west side of Olive street from First to Second streets as follows:

At the southwest corner of First street the grade shall be as now established, 108.00.

At a point 275 feet north of the northwest corner of Second street the grade shall be 93.00.

At a point 100 feet north of the northwest corner of Second street the grade shall be as now established, 91.25

At the northwest corner of Second street the grade shall be as now established, 90.79.

SEC. 2. The City Clerk shall certify to the passage of this ordinance, and shall cause the same to be published for ten days in the Los Angeles DAILY HERALD, and thereupon and thereafter it shall take effect and be in force.

I hereby certify that the foregoing ordinance was adopted by the Council of the City of Los Angeles at its meeting of November 5th, A. D. 1889.

FREEMAN G. TEED,
City Clerk.

Maley, John Doe, Richard Roe, Mary Doe and Jane Roe, defendants:

You and each of you are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the County of Los Angeles, State of California, and to answer the complaint filed therein within ten days (exclusive of the day of service,) after the service on you of this summons, if served within this county; or if served elsewhere within thirty days, or judgment by default will be taken against you, according to the prayer of said complaint.

This action is brought by the plaintiff against you, alleging that there is due and unpaid upon the agreement hereinafter referred to, from defendant, W. G. Benedict, to him, a large sum of money, and to foreclose said agreement in writing, bearing date the 27th day of August, A. D, 1887, and recorded in the office of the County Recorder of the said County of Los Angeles on the 31st day of October, 1887, in Book 321 of Deeds, at pages 241 et seq., a copy of which agreement is set forth in the complaint herein, and in which agreement the said plaintiff contracted to sell, and the said defendant, W. G. Benedict, contracted to buy from the plaintiff, upon the terms and conditions in the said agreement set forth, all of that certain parcel or lot of land situated in the Rancho Santiago de Santa Ana, County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Commencing at a point on the east line of Daniel Halladay's land 330 feet south of the northeast corner of said land; said northeast corner is situate in the center of First street on the north line of Section 18, Township 5, South Range 9 west, running thence south 111¼ rods, thence east 24¾ rods to the west line of land formerly owned by D. H. Samis, thence south along the west line of said land 131¾ rods, more or less, to the north line of land now or formerly owned by J. and R. McFadden, thence west along the north line of said land 97½ rods, thence north 131¾ rods, more or less, to the southwest corner of land formerly owned by Frances Denney, thence east along the south line of said land 48¾ rods to the southeast corner of said land, thence north along the east line of said Denney tract 111¼ rods to the north line of Walnut street as laid out through land formerly owned by M. D. Halladay, thence east along the north line of said Walnut street 24¾ rods to the place of beginning

In the said action, the plaintiff prays judgment against you, and that in and by said judgment the court adjudicate and determine the amount of the balance to be paid to the plaintiff by said W. G. Benedict, for and on account of said agreement to purchase said land, and that the court fix the time within which the amount of the balance shall be paid by the said defendant, Benedict, to plaintiff; that said defendant, Benedict, be required by the court to make such payment within the time so fixed, and that in the event of the failure on his part to make such payment, that he and all of the other defendants herein be foreclosed of all their right, title and interest in and to any and all claims upon the lands described in the said agreement, and not previously conveyed, as shown in said complaint; and that the plaintiff may recover of the defendant W. G. Benedict, his costs of suit, and may have such other and further relief as to the court may seem proper.

Reference is had to complaint for further particulars.

And you and each of you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said plaintiff will cause your default to be entered, and the plaintiff will apply to the court for the relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the county of Los Angeles, this 19th day of July, in the year of our Lord, one thousand eight hundred and eighty-nine.

Miss Kate Stephenson, daughter of Rev. F. C. Stephenson, arrived in this city Sunday afternoon, via the Santa Fe route, from Dallas City, Texas, her former home, where she has been spending a most enjoyable time visiting relatives and friends. She has been in attendance at the Texas State Fair, which she pronounces a marked success. The young lady made the trip to and from Dallas alone, and speaks in terms of praise of the officials and employees of the Santa Fe Company for courtesies extended to patrons. Miss Stephenson is an accomplished young lady, endowed with musical talents, which if properly cultivated will insure for her a bright and promising future.

NEWS NOTES.

The Grand Jury will not be in session at all this week. They will meet on Monday next, and may bring in a final report during that week.

About 1,200 new books have been received at the Public Library, and they are being placed on the shelves as fast as they can be catalogued.

Life, the weekly publication, has been purchased by W. A. Vandercook, and Mariner J. Kent is the manager of its advertising and circulation, and a regular contributor.

Transfers of real estate yesterday amounted to $209,077, and were 57 in number. Of these 13 were for more than $1,000 each, and 20 were for nominal considerations.

The Free Methodist people, under the leadership of Rev. C. B. Ebey, will, this evening, open a new gospel mission on Sixth street, second door north of Olive street. Several short addresses will be made.

The ladies of the First Baptist church, corner of Fort and Sixth streets, have engaged some of the finest musical talent in the city for a concert which they are to give on the evening of the 20th inst. The programme will be given later.

The HERALD baseball club have cast down the gauntlet to the *Times* cracks, and the challenge has been accepted. The latter club will meet defeat at the ball grounds on the corner of Third and Alameda streets next Sunday, between the hours of 2 and 5 o'clock.

The meeting at the Young Men's Christian Association building last night was attended by over one hundred young men, and was of more than ordinary interest, The speaker was very happy in his illustrations of the "Hereafter." The singing was excellent, especially that of the male quartette. The meetings will continue throughout the week, and will begin at 7:45.

Those in charge of the preliminary arrangements for the Sisters' Orphan Asylum Fair, to be given at Armory Hall on the 19th, are very active, and if present intentions are carried out the affair will be a great success. It is said that the costumes of the ladies who are to represent the "Nations" will be magnificent. A bright paper, to be called the *Orphans' Appeal*, will be issued during the fair. It will be edited by Mrs. V. Ponet and Dr. Kannon.

R. D. List, Notary Public. Legal papers carefully drawn. 18 S. Spring. Depositions taken.

CRIMINAL NOTES.

The trial of Manuel Dominguez is set for the 21st of this month in Department Six.

A. A. Montaño and Laura E. Sample will plead before Judge Cheney tomorrow at 10 o'clock.

Yesterday Judge Shaw sentenced Rafael Valenza to three years in the State prison at Folsom.

Hugh Johnson, Wm. Robinson and Dick Dowling will be arraigned before Judge Cheney tomorrow at 10 o'clock.

C. F. McDonald was arraigned yesterday on a charge of murder. He pleaded not guilty. His trial will be set hereafter.

In the Police Court yesterday John Whalen and Chas. Jewett, two disturbers of the peace, were fined $15 and $10 respectively.

Geo. Bush, Pat Lowry and Walter Rouse, three healthy beggars, were convicted of vagrancy by Police Judge Stanton yesterday, and committed to jail for periods of thirty, thirty-five and sixty days respectively.

Police Judge Owens yesterday fined Peter Brown in the sum of $5 for having obtained a meal at the Palace restaurant earlier in the day, with intent to defraud the proprietors, in that he refused to pay for it after having disposed of it.

Officer J. Wright yesterday afternoon arrested Theo. N. Mersch at the Mott Market, on a warrant charging him with having on the 2nd inst., had a number of quails in his possession that had been trapped. He appeared before Police Judge Owens and on explaining that he obtained the birds from Wells, Fargo & Co., who would defend the case, he was granted a continuance of one week, so as to communicate with that company at its headquarters at San Francisco.

Wrestling With the Jury.

Yesterday the District Attorney, F. P Kelly, occupied two hours before Judge Cheney in presenting the case of the people against Wayne Wheeling to the jury. He analyzed the testimony given by the witnesses for the people, in a very thorough manner, and picked that of the defense to bits quite as exhaustively. He made an excellent presentation of his side of the case.

In the afternoon Hon. Calvin Edgerton took up the case for the defense, and spoke fully two hours. His argument was directed largely to showing why, in his conception of the case, the testimony of the two eye-witnesses of the tragedy, George and Gentry, should not be believed. He made an exceedingly eloquent plea for his client. Today, at 9 o'clock, Mr. Shinn will follow with an appeal to save the life or preserve the liberty of young Wheeling. He will probably occupy the whole of the morning session of the court in this endeavor. He will be followed, probably, in the afternoon by Henry T. Gage, who will close on behalf of the people. Then the case will go to the jury for their verdict.

They Want Their Expenses.

Nearly all the witnesses who testified in the Wheeling murder case have asked that their railroad fare and hotel bills be paid by the county. They are nearly all farmers in Antelope valley, and are poor. They have been away from their homes and business for nearly twenty days, paying their own fare on the cars and their board and lodging while here. It is said that in many cases these people were obliged to borrow money and pay for its use to come here. The bills, it is said, will amount to nearly $3,000. If the jury disagree there will have to be another trial, and in any case Hereford is to be tried at once, and all these witnesses will be brought here again.

Veteran Odd Fellows.

The annual meeting of the Veteran Odd Fellows was held at Odd Fellows' hall last night, and the following officers installed: President, Leopold Winter; Vice-President, S. Benjamin, of San Bernardino; Secretary, Captain Emil Harris; Treasurer, Louis Roeder. C. R. Threlkeld was added to the Executive Committee, which consists of the five gentlemen above named. The annual banquet will take place on December 12th.

A Good Suggestion.

A citizen who has occasion to ride a good deal on the cable cars, asks why it is that the conductors are not instructed to let down the curtains at the front end of the cars, so that the wind may not blow quite so fiercely through his whiskers on these cold nights.

Undelivered Telegrams.

At the Western Union Telegraph office, corner Court and Main streets, November 11, 1889: Miss E. J. Hamon, W. E. Sebree, General D. Remick.

A VIGOROUS KICK.

A Merchant's Wife the Bone of Contention. A Denunciation.

A well known merchant who has been greatly benefited by Joy's Vegetable Sarsaparilla, desired to give it to his wife, who was very delicate, but out of caution first consulted his physician Dr. W. H. Griswold of 850 Market street. The doctor, who is one of our leading practitioners objected, saying he had never seen a sarsaparilla that did not contain potash, which thinned the blood; that his patient did not have any vitality to lose, and that what delicate people need is not decreased vitality, but more blood. He however consented when assured that Joy's Vegetable Sarsaparilla was directly opposed to the old mistaken blood thinning idea of other sarsaparillas, and that on the contrary by specific vegetable alteratives it stimulated the excretory organs, promoted digestion, and repaired nutrition, hence created new blood and was the very thing for feeble people. The above explains the hundreds of cases in which aged, enfeebled, delicate and run down people, have been built up by Joy's Vegetable Sarsaparilla after the potash sarsaparillas failed. Its effects are creating a sensation.—*S. F. Examiner.*

WHY SUFFER WITH RHEUMATISM? when the chances are nine in ten that a course of mud baths at Arrowhead Springs will work a cure.

Do Not Delay—Every day of procrastination may put off the hour of release from pain by weeks and months.

The Cost is trifling when compared with doctor's fees, druggists' bills and damage to business.

Rheumatism rarely yields to medicines. The treatment by mineral waters is the most rational and effective known.

The Arrowhead Hot Springs are the finest mineral waters in Southern California, and the Arrowhead Hotel is the best kept sanitarium.
